BARRINGTON
NEW HAMPSHIRE
ANNUAL TOWN REPORT
FOR THE YEAR ENDING
DECEMBER 31, 2001

Dedication

In recognition of her many contributions to this community, including the generous donation of a conservation easement on her historic farm, we hereby dedicate this year's town report in memory of:

Mrs Pauline "Polly" Boodey

These pictures represent a few of the natural and historic resources found in our beautiful town. In September 2001, a natural resource inventory was conducted by the Natural Heritage Committee in conjunction with the Barrington Conservation Commission. The inventory will serve as a planning tool to prioritize more important lands for conservation, recreation and/or open space. With supporting data and map, the inventory helps to provide a clear picture of where these resources are located and why they are significant. In light of a rapidly expanding population and its accompanying development, we are mindful of the importance of these natural resources and how they define a town's character.

Some properties provide a variety of resources that contribute to the sustainability of a community. One such property, known as the Tamposi property, was recently acquired by the town through a DES water Supply Protection Grant. The property, consisting of 1,378 acres of land, provides the headwaters of the Oyster River and a headwater stream of the Bellamy River and was acquired to protect all of our drinking water supplies. Three of the numerous wetlands on site contain rare communities of Atlantic white cedar and black gum. While hunting, hiking and other passive recreation activities will be allowed in perpetuity, motorized-wheeled vehicles are prohibited as a condition of the grant. The abundance of wildlife, along with the many educational benefits it will provide, clearly shows that this property is an ideal example of one of our more important natural resources.

WITH THANKS AND GRATITUDE....

This March, after 36 years as a Selectmen, George Musler will retire from the board. The fact that he served our community for so long is in itself amazing, but George continues to serve as the town's representative to the NH Legislature for the last 20 years as well.

In 1964 when George was first elected to the Board of Selectmen, our population stood at 800, a far cry from the 7,475 residents we have today. At the time, there was no town office so Selectmen worked out of their homes or the nurse's office located at the school. Their wives often filled the positions of secretary or bookkeeper. The Selectmen assessed property on the first day of April every year with residents also being assessed for cattle, machinery, and stock in trade. One police officer was on duty patrolling the mostly dirt roads in town. Road maintenance was completed by anyone (including the selectmen!) who owned a pickup truck and snow plow.

Today, seven police officers patrol roads that are mostly paved. A highway department consisting of eight employees maintains the 60 miles of roads with town owned equipment.

George has been instrumental in many of the improvements to the town including the building of the original town offices (now the library/gym), the traffic light at the intersection of Routes 9 & 125 (and more recently the addition of turn signals here), the purchase of the first fire truck, police cruiser, and ambulance, the introduction of computers to the town office, the landfill closure, the new Public Safety Building and development of Emergency Management planning for the town.

It is with deep gratitude and a degree of sadness that we say goodbye to George. Your countless contributions have shaped this very town and we thank you for the selfless devotion you have exhibited over these many years. We have indeed been fortunate to have you participate in Town affairs for so long. Simply said, we will miss you dearly George.

2001 ANNUAL REPORT TOWN OF BARRINGTON, NEW HAMPSHIRE

Table of Contents

I. DIRECTORY

- Town Offices, Committees and Boards
- Hours & Telephone Numbers

II. TOWN MEETING

- Minutes – First Session – 2001
- Warrant – 2002
- Changes From Deliberative Session – 2002
- Budget – 2002

III. TOWN FINANCIAL REPORTS

- Auditor's Opinion 2001

Town Meeting

**TOWN OF BARRINGTON
ANNUAL TOWN MEETING, FIRST SESSION, 2001**

To the inhabitants of the Town of Barrington, in the County of Strafford, State of New Hampshire, qualified to vote in Town affairs: You are hereby notified of the annual meeting.

The first session for the transaction of all business other than voting by official ballot shall be held Saturday, the 3rd day of February 2001, at 9:00 am, at the Elementary School on Route 125 in Barrington. The first session shall consist of explanation, discussion and debate of each warrant article. Warrant articles may be amended, subject to the following limitations:

- a) Warrant articles whose wording is prescribed by law shall not be amended.
- b) Warrant articles that are amended shall be placed on the official ballot for final vote on the main motion, as amended.

The second session of the Annual Meeting, to vote on questions required by law to be inserted on said official ballot and to vote on all warrant articles from the first session on official ballot shall be held Tuesday, March 13, 2001, at the Barrington Elementary School on Route 125. The polls shall open from 8:00 am to 7:00 pm.

The Moderator repeated his rules of order for the assembly. Smoking is not allowed in the building. The Moderator follows no set rules of order. The Moderator reserves the right to limit debate. Debate should be as concise as possible. Debate must be pertinent to the warrant article on the floor. All debate and questions should be through the Moderator. Before speaking, one must be recognized by the Moderator and then, he/she must state his/her name for the record.

The Moderator may ask that complicated motions be put in writing. The disabled and elderly are allowed to vote first if we go to a secret ballot. The Selectmen or School Board and Advisory Budget Committee will be recognized first before any debate is allowed from the floor.

If a person has spoken previously, the Moderator reserves the right not to recognize that person until others have had the opportunity to speak. To avoid confusion, the Moderator will restrict the number of amendments on the floor at one time and no personal attacks will be allowed.

The Moderator recognized Chuck O'Ceallaigh, Board of Selectmen Chair. Mr. O'Ceallaigh expressed appreciation and gratitude to the town's former Treasurer, Mr. Ronald Seaver, who retired from that

position last year. A plaque was presented to Mr. Seaver, which read: To Ronald Seaver In Appreciation For His Many Years Of Dedicated Service As Selectman And Treasurer To the Town Of Barrington, New Hampshire. Presented from a grateful community with best wishes for the future.

Articles

Article 1. To choose all necessary Town Officers by ballot and majority vote, including:

One Selectman for One Year
Two Selectmen for Three Years
One Cemetery Commissioner for Three Years
One Trustee of Trust Funds for Three Years
Two Library Trustees for Three Years
One Town Moderator for Two Years

The Moderator then explained that Articles 1-11 cannot be amended and must appear on the ballot as written. He stated that there have been two public hearings on the zoning articles. A member of the audience asked for an explanation of Article 9. The Moderator asked L.Meske, Budget Committee member to respond. It was then determined that the question in fact, pertained to Article 2, regarding wireless communications. Mr. Meske explained that the purpose of this ordinance was to establish location and height restrictions.

Since there were no other questions, the Moderator declared that these articles would appear on the ballot as written.

Article 2. Are you in favor of the adoption of Amendment #1 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows: entitled WIRELESS COMMUNICATION FACILITIES, to regulate the placement of cellular telephone towers and other wireless communication facilities?

Article 3. Are you in favor of the adoption of Amendment #2 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:
entitled IMPACT FEES, to allow the Planning Board to impose fees on developers for their fair share of public improvements owned or operated by the town or school district that are required by the development; such fees may be imposed by the Planning Board as a condition of the development's subdivision or site plan approval?

Article 4. Are you in favor of adoption of Amendment #3 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Amend Article 202.07, General Standards–Waste Disposal, to require that waste materials must be removed within 60 days upon written order from the town and to allow the town to withhold a certificate of occupancy for new construction until waste material is removed from the site?

Article 5. Are you in favor of adoption of Amendment #4 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Amend Article 204.01, Wetland Conservation-Purposes and Article 204.02, Wetland Conservation-Permitted Uses and Structures, to make it clear that the protections apply to wetland buffer areas as well as to the wetlands themselves?

Article 6. Are you in favor of adoption of Amendment #5 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Amend Article 205.01. Special Structures-Fences, to restrict the height of fences to no more than 6 feet in the General District instead of 8 feet as currently allowed?

Article 7. Are you in favor of adoption of Amendment #6 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Amend Article 204.03, Wetland Conservation-Setback to Wetland Areas, to replace the current requirement that structures must be setback at least 35 feet from wetlands with a more comprehensive approach which establishes a 50 foot buffer requirement from wetlands for all structures, impermeable surfaces, parking spaces and building activities. The amendment also grandfathers lots which legally existed on March 13, 2001 and further authorizes the Planning Board to issue special use permits to allow activities to be undertaken within the wetland buffer provided certain standards are met by the applicant?

Article 8. Are you in favor of adoption of Amendment #7 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Revise the following minimum lot size and soil requirements:

- (a) Amend article 401.01.01, General District-Minimum Lot Size, to require a minimum contiguous area of 40,000 square feet of upland (dry) soils instead of the current requirement of 60,000

square feet, add the requirement that the building envelope must be confined with such a gray area and delete the reference to Hydric A soils and replace it with a reference to "wetlands, poorly and very poorly drained soils"

- (b) Amend Article 401.01.02, General District-Minimum Lot Sizes for Certain Residential Uses, to delete the reference to Hydric A soils and replace it with a reference to "wetlands, poorly and very poorly drained soils"
- (c) Amend Article 402.02.01, Highway District-Minimum Lot Size for Non-Residential Uses, to a minimum contiguous area of 40,000 square feet of upland (dry) soils instead of the 35,000 square feet currently required?

Article 9. Are you in favor of adoption of Amendment #8 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Address the following dimensional requirements:

- (a) add Article 401.02.04, General District-Minimum Setbacks, to require a 50 foot buffer zone along the boundary of any lot used for non-residential purposes where no development can occur, except as may be necessary to provide access to the lot.
- (b) Amend Article 402.02.03, Highway District-Perimeter Buffer, to make it clear that any lot in the Highway District abutting property in the General District must have at least 50 foot wide buffer zone along the boundary in which no development can occur, except as may be necessary to provide access to the lot.
- (c) Amend Article 401.03, General District-Minimum Frontage, to make it clear that the 200 feet of required frontage for each lot must be continuous and unbroken,
- (d) Amend Article 401.03.01, General District-Minimum Frontage-Backlots, to require that where there are town backlots, the neck and frontage must be owned equally by both, that driveways must be centered in the neck as much as possible and that a road maintenance agreement be recorded at the Registry Of Deeds?

Article 10. Are you in favor of adoption of Amendment #9 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Add Article 405 to incorporate the requirements of existing State Law allowing the Selectmen, after review and comment by the Planning Board, to authorize the issuance of building permits on Class 6 town roads and to renumber existing Articles 405 and 406?

Article 11. Are you in favor of the adoption of Amendment #10 as proposed by the Planning Board for the Barrington Zoning Ordinance as follows:

Amend the definitions by deleting definitions of "Hydric A and Hydric B Soils" and adding definitions of "Poorly and Very Poorly Drained Soils", "Upland Soils", "Building Envelope", "Buffer", "Vernal Pool", "Bog", "Best Management Practices" and "Wetland Areas"?

Article 12. Are you in favor of adoption of a Noise Ordinance for the town that would prohibit the making of noise in excess of 60 decibels from 9:00 pm to 6:00 am and 75 decibels from 6:00 am to 9:00 pm as measured at the property line or any public right of way, provide for waivers to be issued for special circumstances and impose a penalty of up to \$1,000 for each offense?

MOTION: C. O'CEALLAIGH SECOND: R. STOCK

Mr. O'Ceallaigh explained that Chief Conway's response to public demand for an enforceable noise regulation was to quantify the current codes. Doug Hatch Jr. asked if his well-drilling business would be affected by this ordinance. Chief Conway commented that police only respond to complaints in this instance and that Mr. Hatch could obtain a permit from the Town Administrator to do the work for a limited time or between certain hours. Chief Conway went on to explain that the location of the well-drilling had a lot to do with the level of noise, ie: work done in the center of a large parcel of land would not be restricted in the same way as work done on a 2-acre parcel within a development. Additionally, Chief Conway explained that there was no fee written into the ordinance, but rather a process to obtain a permit, and that most neighbors would not complain if they were contacted prior to the work.

Julian Oliver asked about running a chainsaw. Mr. O'Ceallaigh suggested that perhaps running a chainsaw within ten feet of a property line in close proximity to a residence might exceed the decibel limit but again, running it in the middle of one's property at a reasonable distance from a neighbor's house would be acceptable.

A.Whitney asked about motorcycles frequently traveling the road during the prescribed hours. C.O'Ceallaigh noted that this article did not address transient noise.

Rick Sirois asked how one would know if a noise was between sixty and seventy-five decibels. Chief Conway explained that in the case of disorderly conduct/loud parties, if a complaint is registered, a meter is used to measure noise level. This ordinance would provide the police with a definable limit and thus eliminate constant mediation of arguments between neighbors.

Mr. O'Ceallaigh read a statement from the town attorney pertaining to this matter. "Without measurable standards, only those disturbances so flagrant or obvious in nature that they would not require measurement could be enforced." He stated that the goal of the Selectmen was to have an enforceable ordinance.

Mr. Hatch asked about loud animals, to which Mr. O'Ceallaigh responded that this ordinance was for general purposes but that common sense needed to be used.

Mr. Soule asked who the enforcing agency would be, if the town owned testing equipment and how complaints would be made, ie: written or by telephone. Mr. O'Ceallaigh answered that the Police Department would do the enforcing, the town did own the necessary equipment and complaints would come in as usual, written or by telephone.

At this point, there being no further comments, the Moderator declared that Article 12 would appear on the ballot as written.

Article 13. Are you in favor of the adoption of an Alarms and Security Ordinance for the town that establishes minimum standards of physical security for business establishments with a penalty of \$50 for each offense and minimum standards for all emergency and burglar alarm systems with a penalty of \$100 for each offense?

MOTION: C.O'CEALLAIGH SECOND: R.STOCK

Chief Conway explained that in 1987, this ordinance was passed by a vote of the Selectmen but that it has been determined that it must be voted on by the town. The purpose for the ordinance is to cut down on burglary rates, problems at night and allows the police to be more available in the residential areas of town. In answer to a question from J.Olivier, existing businesses would not have to comply and home businesses have never been required to comply.

Since there were no further questions, the Moderator declared that Article 13 would appear on the ballot as written.

Article 14. To see if the Town will vote to raise and appropriate the sum of \$34,676 for the purpose of completing renovations to the girls and boys bathrooms located in the Town Gym. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

*** Note: this appropriation is in addition to Warrant Article #15, the operating budget article.**

MOTION: C.O'CEALLAIGH SECOND: G.MUSLER

C.O'Ceallaigh spoke, emphasizing the deteriorated condition of the bathrooms and suggested that they should be refurbished, since so much money has already been spent on the building and the gym floor.

There being no further discussion, the Moderator declared that the article should be put on the ballot as written.

Article 15. Shall the Town of Barrington raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$2,817,808?" Should this article be defeated, the operating budget shall be \$2,593,440 which is the same as last year, with certain adjustments required by previous action of the Town of Barrington or by law, or the governing body may hold one special meeting in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. **The Selectmen and Advisory Budget Committee recommend this appropriation . (Majority Vote Required)**

MOTION: G.MUSLER

SECOND: C.O'CEALLAIGH

R.O'Brien of the Budget Committee gave an explanation for the increases in the operating budget and the warrant articles. Of the \$269,000.00 increase in the operating budget, \$171,000.00 is related to payroll increases resulting from the development of a new personnel policy. Regarding the \$187,000.00 reflected in the Warrant Articles, he clarified that \$141,000.00 is monies previously raised and the \$39,600.00 for revaluation is already in a trust fund.

In summary, the total increases reflected in the operating budget and warrant articles amounts to \$457,000.00. Of that amount \$209,000.00 will be met by offsetting revenues. The budget committee expects that at least half of the balance will be met by normal increases in revenues and at their last meeting (January 16, 2001), they did not anticipate an increase in taxes, although this could change as the article regarding the Calef property was added after that meeting.

Following Mr. O'Brien, R.Minesinger offered information about the new personnel policy. He explained that the old personnel policy was so outdated that it was of no value at all. A new wage matrix was established after comparisons were made with other towns, which would put Barrington in a better position to attract and retain good employees. Additionally, many of the benefits have been

improved, making Barrington competitive with other towns in the area.

J.Olivier asked about the line item for grants. C.O'Ceallaigh explained that for gross budgeting purposes, any money spent for acquiring grants had to be reflected in the budget. R.O'Brien further clarified that a proposed \$25,000.00 grant had to be included in the budget as well.

There being no other comments, the Moderator declared that Article 15 should appear on the ballot as written.

Article 16. "Shall we modify the Elderly Exempt from property tax in the Town of Barrington based on assessed value, for qualified taxpayers to be as follows:

- For a person 65 years of age up to 75 years of age ---- \$ 20,000.00
- For a person 75 years of age up to 80 years of age ---- \$ 25,000.00
- For a person 80 years of age and up --\$ 35,000.00

To qualify, the person must have been a New Hampshire resident for at least 5 years, own the real estate individually or jointly or if the real estate is owned by such a person's spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of not more than \$20,000.00 or if married, a combined net income of less than \$32,000.00 and own net assets not in excess of \$40,000 (excluding the value of the person's residence)."

MOTION: R.STOCK

SECOND: G.MUSLER

C.O'Ceallaigh commented that this article was a small attempt to make it easier for the elderly to remain in town. He hoped that in the future, the town would raise the exemption.

Seeing no comments from the audience, the Moderator declared that Article 16 should appear on the ballot as written.

Article 17. To see if the town will vote to authorize the Board of Selectmen to accept full ownership and deed to the land known as the Clark Goodwill property located on Route 9 and constituting 35+/- acres identified as Tax Map 11, Lot 6 from the Barrington School District?

MOTION: R. STOCK

SECOND: C. O'CEALLAIGH

R.Stock explained that this was a transfer of property, not a purchase. J.Olivier asked what the property would be used for. C.O'Ceallaigh enumerated several options: 1) concede a portion to

the State for a right-of-way to eliminate the curve in the road (Rt 9); 2) Make use of the gravel and timber on the property; 3) allow residents to make use of the property and 4) perhaps use it for municipal construction in the future, if necessary.

As there were no further comments, the Moderator declared that Article 17 should appear on the ballot as written.

Article 18. To see if the town will vote to authorize the Board of Selectmen to accept full ownership and deed to the land known as the "Tamposi Property" located along Rt 125 and comprised of 66 parcels totaling 1,355 acres, more or less, that is available to the town through a private donation from SAT SR. Limited Partnership and a state grant for the purpose of water supply protection?

MOTION: R.STOCK SECOND: C.O'CEALLAIGH

The Moderator recognized David Mott, chairman of the Conservation Commission. Mr. Mott explained that he had been asked to present this warrant asking the town to accept the deed to the Tamposi property. The proposed transfer was a result of a water supply land grant coordinated by the Natural Heritage Committee. The property is over 1350 acres (66 parcels of land) in the SW corner of town. The property contains three rare and threatened Atlantic white cedar wetland eco-systems, which supply the headwaters of the Oyster River and a major tributary of the Bellamy River, both of which supply drinking water to several communities in the Seacoast area.

The next speaker was Bob Eckert, a Barrington resident. Mr. Eckert works for the Natural Resources Department at UNH and was authorized by the town to organize the Stewardship Planning Committee for the purpose of developing a management plan for water supply protection.

Mr. Eckert explained that this property is in current use and only generates \$890.00 in tax revenue to the town. He stated that the Tamposi family, wanting to sell the property for conservation purposes, had it on the market for five million dollars. Barrington, in partnership with other seacoast area towns affected by this watershed system, submitted a \$700,000.00 grant application to the NH Water Supply Land Conservation Grant Program. The Tamposi organization has agreed to take a charitable tax deduction for the difference. Mr. Eckert also noted that with the development of a management plan, opportunities for hunting and hiking, which residents have enjoyed for many years, would continue. The development of a management plan would be an open process, incorporating site visits and town-wide meetings.

The Moderator recognized J.Iber who asked if town ownership meant some type of control over hunting and snowmobile usage and secondly, did town ownership exclude the development of lots on Route 125 for industrial purposes? To answer these questions, the Moderator recognized Sherry Godlewski of the Department of Environmental Services. Ms. Godlewski explained that parcels on Route 125, which could be used for industrialization, would have to be sub-divided before acquisition of the property. She further explained that passive recreation could take place and there are legislative guidelines that insure that hunting would not be prohibited. She said she would be willing to help with the development of the management plan but that the primary concern was the protection of the land for water supply and recharge of the ground water for Barrington.

Mr. Soule asked about the cost of appraisal. Again, Sherry Godlewski explained that surrounding towns had each contributed \$6000.00 to help pay for appraisal costs and 25% of the project costs will be paid through the State grant.

The Moderator then recognized Marika Wilde. Ms. Wilde, a member of the Natural Heritage Committee, spoke about the exciting work the committee is doing, including the Tamposi project, Isinglass River protection area, walking trail projects, preservation of old homes in Barrington and a proposed town common. She expressed thanks to Jim Shultz for his work along with Bob Stock on the Tamposi project and encouraged everyone to vote for this project.

Since there were no further comments, the Moderator declared that the article should appear on the ballot as written.

Article 19. To see if the town will vote to raise and appropriate the sum of \$5,000.00 to add to the Compactor Expendable Trust Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

**** Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: C.O'CEALLAIGH

SECOND: R.STOCK

Since there were no comments, the Moderator declared that Article 19 should appear on the ballot as written.

Article 20. To see if the town will vote to raise and appropriate the sum of \$10,000.00 to add to the Lagoon Closure Capital Reserve Fund previously established. This amount to come from general

taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

**** Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: C.O'CEALLAIGH SECOND: R.STOCK

Mr.Iber asked when the permit expired; Carol Reilly stated that it expires in 2003.

As there were no other comments, the Moderator declared that Article 20 should appear on the ballot as written.

Article 21. To see if the town will vote to establish a Vital Records Preservation Capital Reserve Fund for the purpose of preserving the vital statistic records of the Town Clerk's office and to raise and appropriate the sum of \$3,500.00 to be placed in this fund in accordance with RSA 35:1 and to designate the Board of Selectmen as agent(s) to expend these funds. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

****Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: G. MUSLER SECOND: C. O'CEALLAIGH

Since there were no comments, the Moderator declared that Article 21 should appear on the ballot as written.

Article 22. To see if the town will vote to raise and appropriate the sum of \$200,000.00 to equip and purchase a new fire truck and authorize the withdrawal of \$141,089.00 from the Capital Reserve Fund established for that purpose and to authorize the Board of Selectmen as agent(s) to expend these funds. The balance of \$58,911.00 is to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation.**

**** Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: R.STOCK SECOND: C.O'CEALLAIGH

Rick Walker, Barrington Fire Chief, made a motion to amend the article to reduce the amount raised by taxes from \$58,911.00 to \$48,911.00, because his truck committee was able to put together a truck package to fit the town's needs for \$10,000.00 less than expected. This truck would replace the 1978 Ford. The Moderator suggested, after consulting the town attorney, that Mr. Walker also add to the amendment to reduce the sum of \$200,000.00 to

\$190,000.00. Mr Walker then asked for the amendment to read: "to see if the town will vote to raise and appropriate the sum of \$190,000.00 to equip and purchase a fire truck and authorize withdrawal of \$141,000.00 from the Capital Reserve and the \$48,911.00 to be raised by taxes." P.Boodey seconded the motion.

The amendment passed and the Moderator declared that Article 22 would appear on the ballot as amended.

Article 23. To see if the town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of constructing a new storage garage and to install a new well on the site of the Pine Grove Cemetery and to raise and appropriate the sum of \$5,000.00 to be placed in this fund and to designate the Cemetery Commissioners as agent(s) to expend these funds. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

**** Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: F. FELLOWS

SECOND: G. MUSLER

Mr. Fellows explained that the present shed is too close to the swamp and that people visiting the cemetery shouldn't be using the restroom in the shed. He also explained that the current gravedigger does so by hand and he won't be doing this forever. A new garage would accommodate a small backhoe, which might be purchased in the future and the time to start planning is now.

Since there were no further comments, the Moderator declared that the article should appear on the ballot as written.

Article 24. To see if the town will vote to raise and appropriate the sum of \$50,000.00 to be added to the Highway Heavy Equipment Capital Reserve Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

**** Note: This appropriation is in addition to Warrant Article #15, the operating budget article.***

MOTION: G.MUSLER

SECOND: C.O'CEALLAIGH

Seeing no comments from the floor, the Moderator declared that Article 24 should appear on the ballot as written.

Article 25. To see if the town will vote to establish a Capital Reserve fund under the provisions of RSA 35:1 for the purpose of Road Reclamation and to raise and appropriate the sum of \$100,000.00 to be placed in this fund and to authorize the Board of Selectmen as agent(s) to expend the funds in this capital reserve fund. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

Note: This appropriation is in addition to Warrant Article #15, the operating budget article.

MOTION: C.O'CEALLAIGH SECOND: R.STOCK

Mr. O'Ceallaigh explained that road reclamation is upgrading the road to reasonable standards. Peter Cook, Road Agent, took the explanation further, describing the process for the audience. The proposed amount would be spent on Hall Road from France Road to Route 4.

Seeing no further comments, the Moderator declared that the article would appear on the ballot as written.

Article 26. To see if the town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of completing the Town Tax Mapping and to raise and appropriate the sum of \$85,000.00 to be placed in this fund and to designate the Board of Selectmen as agent(s) to expend these funds. This amount to come from general taxation. The Selectmen and Advisory Budget committee recommend this appropriation. (Majority Vote Required).

Note: this appropriation is in addition to Warrant Article #15, the operating budget article.

MOTION: R.STOCK SECOND: C.O'CEALLAIGH

D.Mott of the Conservation Commission explained that the current tax maps were not only inadequate but also inaccurate. The state requires mapping of prime wetlands and Strafford Regional Planning utilizes the maps to analyze the planning for growth.

C.O'Ceallaigh stated that the total project would cost around \$170,000.00 and that our attorney strongly advised pursuing this project.

Since there were no other comment, the Moderator declared that Article 26 would appear on the ballot as written.

Article 27. "Shall we adopt the provisions of RSA 72:70 for an exemption, for property tax purposes, from the assessed value of

real property equipped with a wood heating energy system which exemption shall be in the amount of \$5,000.00?"

MOTION: C.O'CEALLAIGH SECOND: C.REILLY

C.O'Ceallaigh explained that "wood heating system" meant heating exclusively with wood.

J.Olivier asked if this article would mean a change to the current exemption. S.McNeil stated that the Department of Revenue notified the town that we have been exempting the tax bill incorrectly, so this article is basically a correction to the current system.

Seeing no further comments, the Moderator declared that the article would appear on the ballot as written.

Article 28. Shall we adopt the provisions of RSA 72:62 for an exemption, for property tax purposes, from the assessed value of real property equipped with a solar energy system, for the purpose of heating, cooling or providing electricity, which exemption shall be in the amount of \$5,000.00?

MOTION: R. STOCK SECOND: C.O'CEALLAIGH

R.Stock stated that this was similar to the wood exemption and that the solar system had to be the exclusive heating source, an active system involving motors, pumps and storage facilities.

Since there were no other comments, the Moderator declared that the article would appear on the ballot as written.

Article 29. To see if the town will vote to raise and appropriate the sum of \$10,000.00 for the purpose of installing a cistern on town property for fire safety. **(Majority Vote Required). The Selectmen and a majority of the Advisory Budget Committee recommend this appropriation.**

Note: This appropriation is in addition to Warrant Article #15, the operating budget article.

MOTION: C.O'Ceallaigh SECOND: R.STOCK

R.Walker, Fire Chief, gave a description of a cistern and explained the necessity for having cisterns in the event of a fire. He informed us that the school warrant had an article for a cistern on school property (Rt 125), and the above article was requesting a cistern in the area of the town hall, library building, middle school and middle school annex.

L.Meske of the Planning Board informed us that current ordinances require a development of five or more homes to have a cistern installed at the developer's expense.

Seeing no further comments, the Moderator declared that this article would appear on the ballot as written.

Article 30. "Shall we adopt the provisions of RSA 31:95-c to restrict 100% of revenues from the Lagoon Septage Hauler fees to expenditures for the purpose of Lagoon Closure?" Such revenues and expenditures shall be accounted for in a special fund to be known as the Lagoon Closure Project fund, separate from the General Fund. Any surplus in said fund shall not be deemed part of the general fund accumulated surplus and shall be expended only after a vote by the legislative body to appropriate a specific amount from said fund for a specific purpose related to the purpose of the fund or source of revenue. **The Board of Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

Note: This appropriation is in addition to Warrant Article #15, the operating budget article.

MOTION: C.O'CEALLAIGH SECOND: R.STOCK

Since there were no comments from the floor, the Moderator declared that this article would appear on the ballot as written.

Article 31. To see if the town will vote to raise and appropriate the sum of \$75,000 to be used toward the purchase of a 12 acre parcel known to some as the Calef Lot, a parcel situated to the rear of Calef's Country Store and bounded somewhat by Mallego Road and Route 125. The balance of funds to be raised by private donations and/or grants from private and government agencies. Such land to be used partly for recreation and outdoor performances (truck rally, circus, music, children's entertainment, etc.) **By Petition. A majority of the Board of Selectmen and the Advisory Budget Committee recommend this appropriation.**

R.Stock asked to amend the article to read as follows: To see if the town will vote to raise and appropriate the sum of \$220,000.00 to purchase a 12-acre parcel known to some as the Calef Lot, a parcel situated to the rear of Calef's country Store and bounded somewhat by Mallego Road and Rt 125, with \$75,000.00 to come from general taxation and the balance to be raised through private donations and/or grants from private and government agencies. The funds raised through general taxation shall be in a non-lapsing appropriation as per RSA 32:7. VI, and will not lapse until the

property is purchased or by December 31st, 2006, whichever is sooner. G.Musler seconded the motion.

R.Minesinger expressed his feeling that the town would be able to acquire the property with a net outlay of \$75,000.00.

In response to a question from P.Panish concerning how the property valuation was determined, C.O'Ceallaigh explained that the town paid for an appraisal last year when the question was initially on the table and that this property was chosen over others because the public had determined that this was a central location in the community.

Since there were no further comments, the Moderator called for a vote on the amendment. The amendment passed.

Afterwards, F.Wallace told the audience that the town has a possibility of receiving a matching grant from the Land and Community Preservation Heritage Investment Program, which would cover half of the costs. If the town raises \$75,000.00 then only a small amount of money would have to be raised from other means.

Requests were made to reword the article so the amount being raised was clear to the voter (\$75,000.00, not 220,000.00). C.O'Ceallaigh explained that the article was written this way for gross budgeting purposes per recommendation of DRA.

The Moderator explained that if the sale did not go through, then the \$75,000.00 would go back to the taxpayers.

C.Soule raised his concern that all the monies being raised would cause a \$2.00 to \$2.50 increase in taxes. C.O'Ceallaigh answered that the Board is optimistic that with the existing capital reserve money and anticipated revenue increases from motor vehicles, etc., that there would be no increase in the town's side of the bill.

Atty Mitchell addressed the question of the language of the article, again explaining that this was recommended by DRA but that the appropriation was only \$75,000.00. The language authorizes the spending of \$220,000.00 if the monies are in fact raised.

Ann Melvin mentioned that there are five people who have already pledged a thousand dollars apiece for this project.

The Moderator declared that Article 31 would appear on the ballot as amended.

Article 32. To transact any other business that may legally come before said meeting of the honorable Town Government (**Majority Vote Required**).

G.Musler gave special recognition to the Town Administrator, Carol Reilly for processing an application with DES, resulting in a \$73,490.77 refund on the current landfill closure costs, based on the grant application which she submitted.

R.Stock announced that the Senior Coffees were being held once a month and that you did not have to be a senior to attend. These meetings are a good opportunity to discuss anything relative to the town.

C.O'Ceallaigh recognized the efforts of R.Stock in the Tamposi Project.

L.Brushette asked that anyone running for Selectmen or School Board would stand and be recognized.

Since there were no other comments, the Moderator adjourned the meeting at 11:00 A.M.

True copy attest:
Sheila Marquette,
Town Clerk

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Barrington, in the County of Strafford, State of New Hampshire, qualified to vote in Town affairs: You are hereby notified of the annual meeting.

The first session for the transaction of all business other than voting by official ballot shall be held Saturday, the 2nd day of February 2002 at 9:00 A.M. at the Elementary School on Route 125 in Barrington. The first session shall consist of explanation, discussion, and debate of each warrant article. Warrant articles may be amended, subject to the following limitations:

- (a) Warrant articles whose wording is prescribed by law shall not be amended.
- (b) Warrant articles that are amended shall be placed on the official ballot for final vote on the main motion, as amended.

The second session of the annual meeting, to vote on questions required by law to be inserted on said official ballot, and to vote on all warrant articles from the first session on official ballot shall be held Tuesday, March 12, 2002 at the Elementary School on Route 125 in Barrington. The polls shall be open from 8:00 A.M. to 7:00 P.M.

Articles

Article 1. To choose all necessary Town Officers by ballot and majority vote, including:

- Two Selectmen for three years.
- One Cemetery Commissioner for three years.
- One Trustee of Trust Funds for three years.
- Two Library Trustees for three years.
- One Library Trustee for one year.
- One Supervisor of the Checklist for six years.

Article 2. Are you in favor of the adoption of amendment No. 1 to the Barrington Zoning Ordinance as proposed by the planning board as follows:

To adopt a Groundwater Overlay Protection District as Article 10 of the zoning ordinance that includes the entire Town of Barrington, to protect potential groundwater supplies and related groundwater recharge areas. The regulations include performance standards for commercial development and require that certain regulated substances be handled and stored in a manner designed to prevent groundwater contamination. Private residences are exempt from the performance standards of the District.

Article 3. Are you in favor of the adoption of amendment No. 2 to the Barrington Zoning Ordinance as proposed by the planning board as follows:

Amend Article 9 of the zoning ordinance, Wireless Communication Facilities, to delete the discretion of the planning board to permit a ground mounted facility to extend more than 20 feet above the height of the average tree canopy, to also delete the definition of "average tree canopy", and to require an applicant to submit a plan certifying the height of the average tree canopy.

Article 4. Are you in favor of the repeal and readoption of the Barrington Building Code as proposed by the planning board as follows:

The current building code is repealed and replaced with a new building code that incorporates by reference various standard codes including the International Building Code/2000, the International Residential Code for One and Two Family Dwellings/2000, the BOCA National Plumbing Code, the NFPA Electrical Code, the International Mechanical Code/2000, the NFPA National Electrical Code/1993, and the NFPA Life Safety Code. In addition, the new building code incorporates the rules of the State of New Hampshire for Subdivision and Individual Sewage Disposal Systems, and carries forward the town's requirement that a foundation certification plan be prepared before a foundation is poured. Finally, the new building code will allow the planning board to adopt future revisions to the various standard codes following a public hearing.

Article 5. Are you in favor of the adoption of an Alarms and Security Ordinance for the town that establishes minimum standards of physical security for business establishments with a penalty of \$50 for each offense, and minimum standards for all emergency and burglar alarm systems with a penalty of \$100 for each offense?

Article 6. Shall we permit the public library to retain all money it receives from its income-generating equipment to be used for general repairs, upgrading, and for the purchase of books, supplies, and income-generating equipment in accordance with the provisions of RSA 202-A: II-a?

Article 7. To see if the Town will vote to raise and appropriate the sum of \$141,000.00 to purchase a 12-acre parcel known to some as the Calef Lot, a parcel situated to the rear of Calef's Country Store and bounded somewhat by Mallego Road and Route 125. (Total cost of the land is \$216,000 of which \$75,000 was raised last year and will be used to supplement this year's appropriation). An

additional \$11,000 from private donations will further reduce the amount required to be raised by taxes leaving the amount to be raised by taxation at \$130,000. **A majority of the Selectmen and the Advisory Budget Committee do not recommend this appropriation.**

(Majority Vote Required).

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 8. "Shall the Town of Barrington raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$3,227,673?" Should this article be defeated, the operating budget shall be \$2,876,244 which is the same as last year, with certain adjustments required by previous action of the Town of Barrington or by law, or the governing body may hold one special meeting in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

Article 9. To see if the town will vote to raise and appropriate the sum of \$5,000.00 to be added to the Cemetery Capital Reserve Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required)**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 10. To see if the town will vote to establish a Vital Records Preservation Capital Reserve Fund for the purpose of preserving the vital statistic records of the Town Clerk's office and to raise and appropriate the sum of \$3,500.00 to be placed in this fund in accordance with RSA 35:1 and to designate the Board of Selectmen as agent(s) to expend these funds. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 11. To see if the town will vote to raise and appropriate the sum of \$50,000.00 to be added to the Highway Heavy Equipment Capital Reserve Fund previously established. This amount to come

from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 12. To see if the town will vote to raise and appropriate the sum of \$20,000.00 to be added to the Ambulance Capital Reserve Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation.**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 13. To see if the town will vote to raise and appropriate the sum of \$40,000.00 to be added to the Fire Truck Capital Reserve Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 14. To see if the town will vote to raise and appropriate the sum of \$5,000.00 to be added to the Swains Dam Capital Reserve Fund previously established. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 15. To see if the town will vote to raise and appropriate the sum of \$30,000.00 for the purpose of purchasing a Fire Rescue Tool with \$15,000.00 to come from general taxation and \$15,000.00 to be donated by the Fire Association. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 16. To see if the town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of constructing a new Highway Department Building and to raise and appropriate the sum of \$25,000.00 to be placed in this fund and to designate the Board of Selectmen as agent(s) to expend the funds in

this capital reserve fund. This amount to come from general taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 17. To see if the town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of constructing a new Library Facility and to raise and appropriate the sum of \$35,000.00 to be placed in this fund and to designate the Board of Selectmen and Library Trustees as agent(s) to expend the funds in this capital reserve fund. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 18. To see if the town will vote to increase the wage line of the full-time Recreation Director's annual income from \$31,914 to \$34,008. **By Petition. The Selectmen and Advisory Budget Committee do not recommend this appropriation. (Majority Vote Required).**

***Note: This appropriation is in addition to Warrant Article #8, the operating budget article.**

Article 19. To see if the town will vote to raise and appropriate the sum of \$50,600 which represents the balance of monies needed to complete the Lagoon Closure. This amount to come from fund balance (surplus) and no amount to be raised from taxation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

Article 20. To transact any other business that may legally come before said meeting of the honorable Town Government. **(Majority Vote Required).**

Given under our hands, this
14th day of January, 2002

SELECTMEN OF BARRINGTON

George T. Musler

Cathal O'Ceallaigh

Robert Stock

George Bailey

Daniel Weeden

A TRUE COPY OF WARRANT – ATTEST

Please notify the Selectmen's Office at least five (5) business days prior to this meeting if the meeting must be modified for your participation.

CHANGES AS A RESULT OF THE 2002 DELIBERATIVE SESSION

Article 7. To see if the Town will vote to raise and appropriate the sum of \$141,000.00 to purchase a 12-acre parcel known to some as the Calef Lot, a parcel situated to the rear of Calef's Country Store and bounded somewhat by Mallego Road and Route 125 which will be placed under the jurisdiction of the Board of Selectmen and/or their designee for use by the town's people for any and all affairs such as social gatherings, recreation, and other meetings appropriate under law. (Total cost of the land is \$216,000 of which \$75,000 was raised last year and will be used to supplement this year's appropriation). An additional \$11,000 from private donations will further reduce the amount required to be raised by taxation leaving the amount to be raised by taxation at \$130,000. **A Majority of the Selectmen and the Advisory Budget Committee do not recommend this appropriation. (Majority Vote Required).**

Article 19. To see if the town will vote to raise and appropriate the sum of \$78,867 which represents the remaining monies needed to complete the Lagoon Closure with \$50,600 to come from fund balance (surplus) and the remaining balance to be removed from a previously established special revenue fund known as the Lagoon Closure Project fund with **no amount to be raised from taxation.** (Total cost of the closure will be \$125,000 of which \$46,132.50 was raised in previous years and will be used to supplement this year's appropriation). This will be a non-lapsing appropriation. **The Selectmen and Advisory Budget Committee recommend this appropriation. (Majority Vote Required).**

Town Financial Reports

INDEPENDENT AUDITOR'S REPORT

January 13, 2001

Board of Selectmen
Town Of Barrington
Barrington, New Hampshire

We have audited the accompanying general purpose financial statements of the Town of Barrington, New Hampshire, as of December 31, 2000 and for the year then ended. These general-purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general purpose financial statements referred to above do not include the general fixed assets account group, which should be included in order to conform with generally accepted accounting principles. The amounts that should be recorded as general fixed assets are not known.

In our opinion, except for the effect on the financial statements of the omission described in the third paragraph, the general purpose financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Town of Barrington, New Hampshire, as of December 31, 2000, and the results of its operations and the cash flows of its proprietary and similar trust fund types for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying combining and individual fund financial statements listed as supporting scheduled in the table of contents are presented for purposes of additional analysis and are not a required part of the

general-purpose financial statements of the Town of Barrington, New Hampshire. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

Respectfully submitted,

Mason & Rich, P.A.

Town Administrators
& Agents

REPORT OF THE TOWN ADMINISTRATOR

Moving into 2001, we faced many demands on the community and town operations. By a previous vote of town meeting, the Board of Selectmen expanded from a three-member board to a five-member board allowing greater representation of the community. The Board has worked diligently this last year to re-shape the face of town government and capture a sense of the community to apply to their overall strategy for governing the town. Throughout the year, the Board spends considerable time working with Department Heads to plan and prioritize capital improvement projects to minimize the impact to taxpayers. It is a challenging process to achieve balance between maintaining services for the community and keeping the tax rate in line. This year, thanks to the commitment of the Selectmen, Budget Committee and Department Heads to uphold the standard we should see no increase to the tax rate if the town's 2002 budget and warrant article requests are approved by the voters.

One such warrant article will deal with the closure of the town operated septage lagoons. The cost of an in-place closure has been calculated at \$125,000. Through previously established warrant articles we have been able to save the bulk of the money needed to complete this closure. The balance of money needed (\$50,600) appears on this years' ballot and would be taken from fund balance (surplus) and, if approved, would have no effect on the tax rate. Over the last several years, we have been moving toward the eventual closure of the lagoons due to the expiration of our groundwater discharge permit in early 2003. Growth within the community has placed further strain on a facility originally designed to accommodate a population of 4,500. Adding to that strain is the town's inability to meet changing state regulations for such facilities and the lack of available property in which to expand the facility. Presently, we are working with our engineer to negotiate acceptance

into a nearby wastewater treatment facility as an option to the current lagoon system of disposal.

A direct result of the increased growth within Barrington and the Seacoast has been new challenges to the sustainability of groundwater. Many wells in the area have gone dry leaving well drillers quite busy and the waiting time for a new well at several weeks. Coupled with a 50-year drought, the continued availability of groundwater in this region remains in question. The Board of Selectmen has proactively pursued two projects affecting groundwater in an effort to protect the interests of the town. The first was the acquisition of the Tamposi Property and the second, challenging a request from USA Springs for a large groundwater withdrawal.

The Tamposi Property or Samuel A. Tamposi Water Supply Reserve (SATWaSR) as it is now known, is a 1,378 acre property acquired via a generous donation from the Tamposi Family along with a \$740,000 grant from the New Hampshire DES Water Source Protection Program and overwhelming support from you, our voters. The property is now designated as a drinking water supply protection area for the towns of Barrington, Madbury, Dover, Lee, Durham, Portsmouth, and for UNH. Originating here on the property are the headwaters of the Oyster River and a headwater stream of the Bellamy River. Three of the property's numerous wetlands contain rare communities of Atlantic white-cedar and black gum, tree species that are uncommon in New Hampshire. A Stewardship Committee has been formed by the town to develop a management plan for the property. As a condition of receiving funding to acquire the land, the state requires that hunting, hiking and other passive recreation be allowed to continue in perpetuity. Long-term issues will include developing educational programs and working with the towns in the drinking water supply area to discuss land and water use. This will help insure the continued availability of drinking water for all.

In June of 2001, we received an application request to the DES for the withdrawal of 439,000 gallons of water per day for a bottled water plant that poses serious concerns to Barrington. Along with the communities of Nottingham and Northwood, Barrington has played an active role in challenging this request. The proposed bottled water plant to be located off Route 4 in Nottingham impacts some 20 acres of land in Barrington including a prime wetland. The withdrawal would adversely affect the hydrology of wetlands and streams that comprise the watershed of the Lamprey River, and could affect water quality to both Mendums and Swains Lake. Other issues such as plant size and location and tractor-trailer traffic for hauling the bottled water only increases the concern for local and regional impacts. In response, the Board of Selectmen has hired an environmental attorney to make sense of the complicated application process and develop a legal strategy for the town. Attorney Mark Beliveau with the firm of Sanders & McDermott has since been actively meeting with technical experts to compile information relative to this project and in meeting with state and local officials to coordinate a re-write of the legislation pertaining to such withdrawals. Active participation by the communities and Save Our Groundwater (SOG), a citizens based action group, has led to an overwhelming number of letters to DES demanding a denial of the withdrawal application. We have received a great deal of support in furthering our position from State Senator McCarley, State Representative Musler, State Representative Wall, State Representative DeChane and Governor Shaheen. Please watch for upcoming meetings and articles discussing this important issue.

The September 11 tragedy changed the way we go about our daily lives and will have a lasting impact on our children's future. As a nation, state, and community we learned the importance of emergency planning and preparedness. Our police, fire and ambulance departments are continually exposed to new training

methods collectively and individually. Over the last several years, we have worked on improving our Emergency Operations Center and the town's Emergency Management Plan. With the addition of grant monies provided by the Office of Emergency Management we will continue to develop emergency preparedness with two projects planned for 2002. Further development of the Emergency Operations Center and a mock training drill are planned to begin in early 2002. We are, and will continue to be, committed to improving emergency services in an effort to protect the citizens of Barrington.

As Administrator, I continue to work with all departments, boards and commissions on solutions to issues affecting the town. We are still fine tuning an institutional communication network for town and school district facilities that will allow us access to the Internet. Once this is completed, we will begin developing a town web site that will provide the community with information on issues pertaining to individual departments, boards, and commissions. My goal is to continue to explore ways in which we can improve the quality of service we provide the community at every level. As always, I am available at Town Offices to assist with any questions or issues regarding town operations that you may have.

We are fortunate to have a very dedicated staff of employees, elected and appointed officials and volunteers who work hard to provide the best to the town. With your help and continued support, we can realize our goal of making Barrington the best place to live. We encourage you to take part in shaping the community by attending a meeting, volunteering, and, most importantly, voting.

Respectfully submitted,

Carol Reilly

Town Administrator

ZONING BOARD OF ADJUSTMENT TOWN REPORT

The Zoning Board of Adjustment met eleven times in 2001. Member Maynard Heckel did not choose to stay on the Board for another term. He had served on the Zoning Board for many years and his input, common sense, and dependability will be greatly missed. There were 13 cases scheduled for hearings:

- Requests for special exceptions - 4

- Requests for equitable waivers – 2

- Requests for variances – 4

- Request for appeal to an administrative decision – 3

Of the 13 cases held, the following decisions were made:

- 4 cases were withdrawn

- 1 case was denied

- 8 cases were granted

There have been some changes in the State Law with regard to a variance request. An applicant should ensure he has researched the changes so any request would reflect them. It is very important to read the application carefully and fill out the areas that pertain to each case so it is complete. A certified plot plan of the lot must be done by a licensed surveyor and all existing and proposed setbacks shown. The more complete an application is, makes it move through the process smoothly.

A reminder that any person requesting a building permit on a class 6 or private road must follow the procedure set forth in RSA 674:41. An applicant should meet with the Road Agent for his recommendation on what improvement is needed on the road for safe passage. The Planning Board must review and make recommendations to the Board of Selectmen who decide whether a building permit should be granted. The comments and recommendations of the Road Agent are considered very important in this process. A permit for building on a private road requires a street plat of the road with improvements presented to the Planning Board, be within an approved subdivision, or a person can go before the Zoning Board of Adjustment for relief if he can represent and prove that road costs would be greater than could be afforded for the construction of a single home.

The Zoning Board is always looking for full and alternate members. The Board meets on the third Wednesday of each month. If you would like to join the Board call the Planning and Zoning Office at 664-5798.

Karyn Forbes

Chair.

Barrington Zoning Board of Adjustment

HIGHWAY DEPARTMENT TOWN REPORT

The Barrington Highway Department finished the year within budget. We were able to complete all of the projects we set out to do with the exception of paving the Route 4 end of Hall Road. It got too late in the year to do any paving work so the job was put on hold until the spring.

Our projects for 2002 include an overlay of Fogarty, Juniper, Mahala and Commerce Way. We will also be working on Scruton Pond Road from where the pavement ends to Lily Pond Road with hopes of hot topping that section, and completing the sealing of five miles of additional town roads. Our annual projects include brush cutting, ditching, patching and grading.

This year we are asking that \$50,000 be added to the heavy equipment line. With that money and money already in the capital reserve account we will be purchasing a new dump truck to replace the 1985 International. We are also planning for the future by starting a capital reserve fund for a new building to house our equipment and keep it out of the weather. Keeping the equipment undercover will add to its life expectancy.

There has been an effort to coordinate projects between the School Department and the town highway crew. The School Department helped with mowing and landscaping during the summer and the town crew worked on paving projects at the school. It has been a pleasure to enter into this new venture. Paul Sanders and his crew do a great job and assisted us when needed.

In closing, I would like to take the time to thank all of the Departments for their support and help, but most of all, to thank the residents of Barrington for their support over the years. The Highway Department looks forward to continuing to serve the community with the level of service they deserve and are accustomed to.

Respectfully submitted,
Peter Cook,
Road Agent

BARRINGTON TRANSFER STATION AND RECYCLING TOWN REPORT

The Barrington Transfer Station and Recycling Center experienced an increase in recycled material and in the sale of trash bags from previous years. This coming year will be a challenge with the fluctuation in the recycling markets. We will continue to go with the company that gives us the best price.

There will be an increase in our contract with Waste Management to cover the cost per ton of \$3.19 and the rise in tonnage.

The landfill cap is in good shape with no erosion problems. The big project facing the town now is the closure of the lagoons. The town will be contracting with another town for disposal of septage waste. With the help of CMA Engineers the closure project should be completed well before the State permit runs out in 2003.

I would like to thank all the devoted volunteers for their help and support of the recycling program. We are always looking for new volunteers. If you would like to volunteer, you can do so by calling the town office at 664-9007.

Respectfully submitted,
Peter Cook

BARRINGTON FIRE DEPARTMENT ANNUAL REPORT

As time passes and Barrington continues to grow, the demand on emergency services grows. In 2001, the Fire Department responded to 274 calls. This is an increase of 26 calls over the past year.

Barrington is very fortunate to have between 25–30 volunteers on the roster at any given time. These people are on call 24 hours a day, 7 days a week. We are fortunate to have such a dedicated group of people.

We train in house every Tuesday night and many get additional outside training on other nights and weekends. Most of our firefighters are certified in the State of NH and over half of the firefighters also have some medical training so we can assist the ambulance crew when needed.

We took delivery of our new truck this past October. We are very proud of this truck. Please stop in and take a look at it, we love to show it off.

The September 11, 2001 tragedy hit hard for the members of the Department. Our hearts go out to the families of the firefighters, police and EMT's who made the ultimate sacrifice to help others.

I would like to thank the Barrington Highway Dept, Police Dept and Ambulance Dept for their help. It is greatly appreciated. I also want to thank the girls in the office for their help and guidance as well as the Planning Dept, and Code Enforcement Officer. Their help is invaluable.

To the residents of Town, thank you for the support. It means more than you can ever imagine. It keeps us going.

To the firefighters, you are the best. You do some amazing things during the most difficult of times. The biggest thanks go out to the families of the firefighters. They give up so much so we can do our job. Thank you, God Bless and be safe.

Respectfully submitted,
Rick Walker,
Fire Chief

BARRINGTON FIREMEN'S ASSOCIATION ANNUAL REPORT

In the 1940's, the Barrington Firemen's Association was formed to aid the Town with fire protection. Fifty-seven years later, we are still going strong.

The Fire Association takes on a number of community projects during the year including visiting the schools in town to witness fire drills and give fire prevention demonstrations. We also purchase handouts and other related paperwork to give to the children during Fire Prevention Week in October.

We offer financial aid to Barrington residents who are continuing their education in the field of fire fighting. For more information contact Lt. Millette at 664-2241 and leave a message.

During the past year we finished filling the kitchen at the Public Safety Building with kitchen accessories so we can be ready when the need arises. We also purchased numerous items to outfit the training room.

The Association plans to match the sum of fifteen thousand dollars for a new rescue tool if voters approve the warrant article at town meeting.

The Firemen's Association meets on the second Tuesday of the month at 7:00 p.m. at the Public Safety Building. If you have any questions or comments, please call 664-2241 or 332-3944 and leave a message.

Respectfully submitted,
Rick Walker
President,
Barrington Firemen's
Association

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

In calendar year 2001, our leading cause of fire was *Illegal burns*. The majority of our forestry calls were adults burning without a burn permit. Please be sure to ***obtain a burn permit before starting a fire!!***

Violations of RSA 224:27 11, The Fire Permit Law and other burning laws of the state of NH are misdemeanors punishable by fines up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

To aid your Forest Fire Warden, Fire Dept and State Forest Fire Officials, contact your local Warden, Deputy Warden or Town Office Officials to see if a permit is required. This can also help prevent unnecessary responses to controlled burns.

Fire Department Rules and Regulations:

WINTER: No written permit is required to kindle a fire if adequate snow cover is present at the burn site. However, a phone call to a Warden or Deputy Warden is requested.

ALL OTHER SEASONS:

1. From September 1st, through June 1st, burning will be allowed after 5pm ***WITH SIGNED PERMIT***. Fires must be attended at all times and fully extinguished by 9:00 am.

2. From June 2nd through August 31st, ***PERMITS WILL BE ISSUED ONLY ON RAINY DAYS***.

During extreme dry weather all permits (including seasonal) may be revoked or not issued. This is for public safety and reducing unnecessary fire emergencies.

AS SMOKEY SAYS:

“ONLY YOU CAN PREVENT FOREST FIRES”

Permits May Be Obtained From The Following People:

FIRE WARDEN	Russell Bassett	664-2971
DEPUTY WARDEN	Harlan Calef	664-2232
DEPUTY WARDEN	Rick Walker	332-3944
DEPUTY WARDEN	Philip Boody	664-9757
ISSUING AGENT	Jonathan Janelle	332-6419
ISSUING AGENT	Mike Ferullo	664-7483
BARRINGTON FIRE DEPT	8am to 4pm	664-2241
(Raining Weekend Days)		
BARRINGTON TOWN OFFICES		664-9007

STATE OF NH FIRE STATISTICS, 2001

Number of Fires Reported	942
Acres Burned	428

Local Communities and the State of NH share suppression costs (50/50). The State of NH operates 15 fire lookout towers and 3 contract aircraft patrols. this early detection system and reports from local citizens aid the quick response from local fire departments. Please help us keep the fire towers by contacting your local state representative and ask them to support funding these towers.

Barrington has received a \$650 grant from the Volunteer Fire Assistance Funds under the Title IV Rural Development Act. These funds will be used to purchase a new forestry hose.

!!! REMEMBER, ONLY YOU CAN PREVENT FOREST FIRES !!!

TOWN OF BARRINGTON
REPORT OF THE BUILDING AND HEALTH DEPARTMENTS

Dwelling units:	59	Sheds:	21	Additions:	13
Replacement		Pools:	12	Misc:	6
Homes:	22	Garages:	34	Porch/Deck:	36
Renovate/Alter:	12	Extensions:	7	Plumbing:	13
Commercial:	16	Electrical:	30	Mechanical:	2
Valuations:	12,536,000 (2000)	Fees:	\$ 54,956 (2000)		
	14,568,000 (2001)		\$ 63,487 (2001)		

In 2001, 231 building permits were issued in the Town of Barrington, up slightly from 2000. (Not counting separate electrical, mechanical and plumbing permits.) The number of new dwelling units was down from the previous year. However, the number of permits for commercial projects was 16, compared to 9 for 2000. The potential for continued growth exists with a number of new subdivisions in the preliminary stages. Much of my time is spent in the field doing inspections. This is balanced by time spent in the office responding to correspondence, questions and complaints. The Building Department office is open regularly for messages, scheduling inspections and assisting the public with their inquiries and concerns.

I continue to attend workshops offered by various agencies including NH Building Officials Assoc., NH Municipal Assoc and other groups. These workshops enable us as building officials, code enforcement and health officers, to keep up to date on ever changing laws and codes and exchange ideas with officials from other communities. As a result, we are better able to perform our responsibilities to the community.

In regard to my position as Health Officer, I perform inspections for daycare facilities and foster care homes. Other issues addressed include failed septic systems, water tests and other health and safety concerns. The public is assisted with their questions and complaints.

The Building Department would like to remind property owners that permits are required for rebuilding, upgrading electrical and/or plumbing services, new oil/gas monitor installations, swimming pools, signs, outbuildings, garages, additions and remodeling.

I would like to thank the various departments and my many co-workers for their ongoing support and cooperation.

Respectfully submitted,

Theodore J. Buczek,

Code Enforcement Officer,
Building Inspector & Health Officer

BARRINGTON POLICE DEPARTMENT ANNUAL REPORT

"911" is the number to be dialed for "Fire, Police or Medical" emergencies. When 911 is dialed, the telephone call is received in Concord at the 911 Dispatch Center. A computer screen instantly provides the 911 dispatcher with the following information:

- the phone number where the call originated from
- the name and billing address listed for the phone number

The call is then transferred to Durham Dispatch for fire emergencies or the Strafford County Sheriff's Department for police and/or medical emergencies.

When calling the police for non-emergencies, the following numbers should be used:

- 664-2700 24 hour dispatch
- 664-7679 Office, Monday – Friday, 8:00 am – 4:00 pm
- 664-5024 Fax

The staff has been extremely busy this past year. National averages for police coverage are one officer for every 500 people. We have an approved staff of 7 full time and two part time officers servicing a town of over 7500 people. The staffing shortage frequently results in delayed response, due to the necessity to prioritize calls for service. We understand that every incident is important to the reporting caller and we attempt to deal with the calls as soon as possible when received.

This year the department is sponsoring a warrant article for an Alarm Ordinance. The purpose of the Ordinance is to provide guidelines for the safe and efficient operation of an alarm system. Last year we responded to 272 false alarm calls. These "*Calls For Service*" were generated by less than ten percent of the alarm systems in town. There is no reason why alarm system owners cannot reduce and eliminate false alarms with minimal effort on their part. We hope you will support this warrant article.

It is the department's continuing goal to render efficient and professional service to the community. We encourage anyone with questions or concerns with which we may assist, to contact us. The department will better serve the community needs with community participation and input.

Respectfully Submitted,

Richard P. Conway
Police Chief

BARRINGTON PUBLIC LIBRARY ANNUAL REPORT 2001

The 2001 fiscal year has been an extremely busy time here at the library; we have seen increased patronage, circulation, and program attendance since our recent renovations. We are very excited to see the citizens of Barrington making use of our new facilities, books, and electronic services. Please see our library statistics page for a picture of how much more is happening at the library!

Along with increased activity has come an increased interest in donating to the Barrington Public Library. It is with great pleasure I report that we received over \$12,650 worth of donated materials this year that we were able to catalog and add to the collection. Residents have generously donated books, audio books, music CD's, videos, DVD's, and magazine subscriptions! These greatly appreciated items have helped expand our collections. We urge others to follow suit and clean out those bookshelves and video racks for donation; it is a wonderful way to share with your community. This donated material monetarily equals the funds allocated by the town this year for material purchases, so in essence, the townspeople have helped us double what we otherwise would have been able to purchase! We have also been the recipients of \$3168.00 in donated funds which have helped us purchase museum passes for public use, young adult audio books, books, performers for summer reading, library furnishing, supplies, and BPL tote bags. Many thanks to the Friends of the Library Group, Jean Bullen, Everett Nelson, Hannah Sattler, the Barrington Women's Club, and the Barrington 2000 Committee for their generosity. We would also like to thank the many volunteers who have given their time this year; we have had over 45 people help with our new landscaping project, updating patron registration information, decorating, cleaning and other tasks we desperately needed done. We give special thanks to Jenny Fales for her vision and time in designing and implementing our new gardens.

Also, many thanks to Stan Kalishman for our new fish tank, which is being maintained by William Lee. The time spent by these people is as valuable as any monetary donation and we welcome volunteers with open arms! We hope to see this trend of donations and volunteerism continues past our

opening year. Please come in and see what you can do to help.

Now that you see what you have given us, did you know that we offer the following services?

- We now offer **out-of-state Inter-Library Loan** searches thanks to our ability to search the US Libraries via WorldCat, a new database provided free by the NH State Library. You can now have us search worldwide for an item and it comes via US mail. Your only cost is postage fees one way!
- The library has a newly re-vamped **web site** <http://www.barringtonlibrary.com> which contains a Kids Corner, a Teen Zone, a Calendar of Events, a list of new books at the library, and lots of web links and town information! You can also use our new **ONLINE CARD CATALOG** from this web site. You can renew books, search our catalog to see if we own a title, reserve a book that is currently out, send a reference question or an Inter-Library Loan request, all from your home computer! You can also search our periodical database, **Proquest**, from this page. Simply use the following codes to get in:

Account Name: (000J63QRBX)

Password: (WELCOME).

You can view and print out full text magazine and journal articles from thousands of sources!

- The library has expanded its **Children's Programming** schedule to include a Teen Book Group for kids ages 11-18, a Teen movie afternoon once a month complete with soda and popcorn, an extra session of our Story Time for 3-7 year olds, and two new sessions of Story Time for Toddlers ages 6 months – 3 years old! These have been popular but we continue urging you to call and get your kids involved in these fun, educational, and safe activities. We also continued our ever-popular Summer Reading program and had 164 children participate this year...an all-time high! We also had teen volunteers (grades 7-9) this summer, who worked very hard to make the program a success! We also received another Kids, Books, and Arts grant to have a special juggler as our opening performer and a storyteller, supported by Friends of the Library as a mid-summer entertainer.

- The library has expanded its **collections** to serve you better. We recently began collecting **DVD movies** and **books on CD** since these were two areas that we had had requests. We have also expanded our audio book collection for young adults and our periodicals for teens. You can now also check out computer games on CD to play on your home computer!
- Need to **fax a document** or **scan a photo**? The library can do both for you! Scanning is free for the first 5 photos and then it is a \$1.00 per photo/ a disk for storage of the photos can be purchased for a \$1.00 as well. Fax services are \$1.00 per page for outgoing items and just .10 per page if you have a document faxed to you at the library!
- The library also offers **Adult Programming**....Join our Book Discussion Group (Every Month), our Poetry Reading Group (April-Nov.), or sign up for one of our computer classes or seminars on special subjects such as college planning or investing. We are always looking for suggestions from you about the kinds of programs you'd like to see at the library, come in and let us know.
- We can provide **meeting space** for your group (up to 30) during the library's open hours. Simply call the library to schedule a time. Library functions take precedence so plan ahead.
- Come in and use any of our three Internet capable computers to surf the net, check your e-mail, or write up a paper. We have Excel, Access, and Word for your use as well as Winway, a resume-writing program that walks you through cover letters and resumes. We also have SAT study CD's, a World Atlas on CD-ROM, and the complete National Geographic from 1888-2000 on CD!
- Tax Forms...you need them and we've got them all. We have multiple copies of common forms and a book of reproducible forms for less common ones. We also have a CD-ROM with current forms and instructions that you can print out.

**YOUR VNA
ROCHESTER/RURAL DISTRICT VNA & HOSPICE
ANNUAL REPORT 2001**

Your VNA continues to serve your community as a private, independent, non-profit home health agency certified by Medicare and licensed by the state in home health and hospice. Your VNA provides high quality care in a cost-effective, caring manner. In addition to our full range of home health and hospice services, we are supported by a dedicated group of volunteers providing companionship and respite to patients and families.

Our Board of Directors, including your Board Representative, Carolyn Bedford, continues to assess the health care environment in Barrington to ensure that decisions we make are in the best interest of your community. Your VNA remains committed to serving patients regardless of their financial circumstances. Your town contributions are essential to meeting the skilled, intermittent home health and hospice needs in your community for those with little or no insurance.

Your VNA (Rochester/Rural District Visiting Nurse Association & Hospice) is extremely pleased with the success of our merger. The staff and Boards have come together creating a team that works cohesively for the betterment of the organization with increased efficiencies. We moved into our new office May 17th and sold both former offices within the month. The location is more central to all our communities with easy access and good visibility. We have applied for and been approved for funding assistance with our mortgage from HEFA.

This has been a productive year for services, with a stable number of visits and clients. Increased numbers of people now access our community clinics and we are seeing increased office visits. We are also seeing continued increases in the number of low-income clients, especially in our HCBC (Home and Community Based Care) program. This program provides care to low-income individuals who qualify for nursing home placement, but choose to stay in their home. The program is funded by the state at rates well below the cost of care. Your contributions to our Agency allow us to meet these care needs.

Please know that you have a right to choose your home care and hospice provider. Choose quality combined with a long-standing commitment to your community. Ask for **Your VNA** (Rochester/Rural District VNA & Hospice) by name.

Thank you to everyone that has made personal contributions in support of our programs and building. We are proud to be meeting your home health and hospice needs and look forward to working with you in the future.

**THE ROGER E. CARDIN JR. POST 114
AMERICAN LEGION OF NEW HAMPSHIRE**

The Post, originally chartered in 1989, was later renamed to honor its Past Commander, Roger E. Carden Jr. The Post and its Auxiliary meet on the fourth Thursday of each month at the Bank of New Hampshire, Route 125 at 7:00 p.m.

The American Legion participated in the Memorial Day Parade and assisted the VFW in the Veteran's Day Service.

The Post Honor Guard also participated in the funeral of deceased veterans during the year.

The Post was able to honor four eighth graders in Barrington for their outstanding school work.

Several veterans that were in need were assisted by this Post.

Again, we had a very successful year.

When you see our table at any function, please stop by and get to know us and see if we can help you.

Respectfully submitted,

Clayton E. Bousquin,
Commander

BARRINGTON AMBULANCE 2001 ANNUAL REPORT

The year 2001 has been very interesting, like all the rest. The purchase of the new ambulance early in the year has served us well. The new ambulance with its up-dated features is making our difficult job easier. With more interior room to work and assess patients, to the latest in radio equipment which helps us communicate with dispatch and the hospitals, the new ambulance is all we expected it to be. Our volunteers are very proud to work in such a vehicle.

Some Fire Department Volunteers have taken and passed the First Responder Course. Some of those have also gone so far as to get a New Hampshire Ambulance Attendance License so they can function on both the Fire and Ambulance Departments. This has been a great help to the Ambulance Department due to the still low number of volunteers. These volunteers can help with driving or patient care. Daytime coverage remains a problem but there are numerous protocols that have been developed to minimize the lack of coverage.

The Ambulance responded to 188 emergency calls in the year 2001. Rochester Ambulance and Durham Ambulance assisted in covering the emergencies that we were unable to get volunteers to cover. We now have Advanced Life Support services available to us for those calls requiring it. Dover Fire and Rescue, Durham Ambulance and Rochester Ambulance are all ALS services that provide their surrounding communities with this type of service.

The Ambulance Department is sill looking for volunteers. If you would like to help support and keep our community healthy and safe, contact Stephen Millette at 664-7394 or stop by the Barrington Public Safety Building to inspect the vehicle that you could be working in.

Respectively Submitted

Stephen Millette
Ambulance Chief

TOWN REPORT BARRINGTON RECREATION DEPARTMENT

Again in 2001, the Barrington Recreation Department attempted to meet the constantly growing recreation needs of residents through increased programming. The Department continues offering more programs and services than any other one-person recreation department, especially considering the limited funding support. Resident feedback indicates overwhelming support for Department efforts and a desire for increased programs, resources and facilities.

The Recreation Department has worked, over the 3½ years I've been Director, to reach out to residents and community groups to create bonds and working relationships that can lead to enhanced "sense of community" and enhance the quality of life for residents.

The recently completed Open Space and Recreation Plan confirms the department's belief that recreation (active and passive), and recreation areas and facilities are a priority to residents. Barrington residents insist that recreation is an essential part of their lives in Barrington and it is of top priority for maintaining the quality of life in town. According to the Plan, "The opportunity for people to pursue unstructured recreational activities is a fundamental aspect to a person's quality of life."

The Open Space and Recreation Plan, developed for the Town by the Strafford Regional Planning Commission, echoes resident feelings in its recommendations. The Plan recommends that the Town "maintain existing and continue to establish new types of recreation facilities and programs that respond to the needs and desires of Barrington residents; consider the establishment of an indoor recreational facility and programs that would satisfy needs expressed in the Survey, such as the provision of teen and elderly activities" and "Consider the development of a town common area as a site where residents can gather and participate in informal, unstructured social and recreational activities. This proposal has been highlighted by the Barrington Recreation Department as its top priority for development".

Almost 2/3 of Barrington residents surveyed for the Open Space and Recreation Plan said they would be willing to use tax dollars to purchase property for recreational use. 76% of residents were strongly in favor of the Town pursuing the creation of a town common or public park/gathering place.

The Barrington Recreation Department will continue to strive to meet the recreation programming needs and recreation facility needs of residents in the year to come. We will continue to make participation and health our major priorities. Our emphasis on involving parents in their childrens' activities has led to a richer experience for all, increasing the amount of quality time parents and children spend together and insuring that civility and sportsmanship remain hallmarks of Barrington and Barrington Recreation.

Hopefully, with the necessary budgetary support, the Barrington Recreation Department can continue providing rich recreational experiences and opportunities for residents of all ages along with the active (gyms, ballfields, playing courts) and passive (parks, trails), facilities that all Barrington people can enjoy and be proud to call their own.

Randy Spartachino

Director of Recreation

Town of Barrington, New Hampshire

LAMPREY HEALTH CARE TOWN REPORT

Lamprey Health Care provides a variety of services to residents of Barrington and has been providing service for over **30 years** to our communities. We are very proud of this achievement and wish to thank the citizens of your community for your continuing support so that we can continue to provide service to our neighbors and communities.

The Senior Citizen Transportation Program operated by Lamprey Health Care is one of the most important services provided to residents of the area. The busses provide necessary transportation for food shopping, medical appointments, pharmacy and recreation. Residents are picked up at their homes and are assisted with bundles and with shopping if necessary. The Senior Transportation Program is affiliated with COAST.

All seven busses operated by this program are handicapped accessible. Special appointments, which cannot be incorporated into the specific routes serving your area, are arranged through the Transportation Coordinator and a group of volunteers. The program almost operates as a “Friendly Callers” program in that the seniors who ride are in contact with the program, and if not, they are checked on to be sure that everything is all right. The Transportation Health Workers (Drivers) from the program also do necessary errands for their riders if they are unable to do them due to illness, etc. This program does a great deal toward keeping our elderly population healthy, independent and in their homes.

The medical services provided by Lamprey Health Care include primary medical care, health promotion and education and social services. Increased capacity in both our Raymond and our Newmarket centers allows Lamprey Health Care to serve the residents of our local area in a timely and efficient manner. Staffing for both Centers includes seven Board Certified Family Physicians and one Pediatrician. Five Nurse Practitioners and a support staff of Registered and licensed Practical Nurses, a Dietician, a Diabetes Educator and Community Health Workers round out the medical team. Medical care provided includes prenatal care, adult medicine and geriatric medicine, as well as, screenings and follow up for various medical conditions including an emphasis on breast & cervical cancer through our Women’s Wellness Program.

Lamprey Health Care has a primary mission to provide for the total health needs of the residents of our service area. From prenatal to geriatric care, from primary health care to transportation for seniors, we take great pride in the services provided to the communities we serve.

A reminder that Lamprey Health Care provides comprehensive information and referral through **INFO-LINK available toll free at 1-800-499-2525 – Monday through Friday from 8:00 a.m. – 6:00 p.m.** INFO-LINK can help local residents find the answers and support they need when they have a question about a service or type of assistance. INFO-LINK is “your link to community services”.

We appreciate the continued support of your community for the services provided by Lamprey Health Care.

Sincerely,
s/Ann H. Peters
Executive Director

SENATOR CAROLINE MCCARLEY, DISTRICT 6
ANNUAL REPORT 2001

I appreciate this opportunity to report to the residents of Barrington from the New Hampshire Senate.

Once again, funding of the state's share of the cost of public education overshadowed the biennial budget process. Public education represents the largest single public expenditure in New Hampshire. The Legislature has committed the state to funding more than half the total cost of the public school system. But several questions—including how to distribute state funds among school districts most efficiently, how to hold school districts accountable for the quality of education they provide and how to raise the revenue required to fund the state's contribution—remain subjects of ongoing debate. At the same time, whether the state has fulfilled its constitutional duty to define and provide every educable child with an adequate education is a subject of renewed litigation before the Supreme Court.

This session I will vice chair the Education Committee as well as serve on the Public Institutions/Health and Human Services, Rules, Transportation, and Fiscal Committees. The slowed economy has put pressures on the state budget, prompting the governor to instruct departments and agencies to reduce spending. The timing and strength of the economic recovery will determine whether further adjustments are required during the session. Meanwhile, the Legislature will continue to address issues surrounding public education and judicial reform while completing the task of redrawing the congressional districts along with the House and Senate district to match the 2000 census.

If you wish to raise these or other issues with me or if I can help with a problem, please contact me by calling or writing my office at 271-2166, Room 120, State House, Concord, NH 03301

TOWN OF BARRINGTON REPORT OF THE PLANNING BOARD

It is my pleasure as Chair of the Town of Barrington Planning Board to provide this update of Board activities for the annual Town Report. The format of Board activities is as follows: the first Thursday of each month (7PM-) is set aside for a Public Hearing of new and continued applications for development in which applicants, abutters, the Board and concerned parties meet to discuss and process the proposal...the second Thursday evening is typically a work session of the Board, open of course to the public, and is where we would work on long-range planning issues (proposed amendments to the Town Zoning and Site Review Ordinances, the Master Plan...)...the third Thursday evening is always a review of the plans that will be heard at the next Public Hearing. This is a vital part of our duties and is where we examine plans in detail for compliance with all Town regulations. This meeting as well as the meeting on the last Thursday of each month (more long-range planning and special projects work) is open to the public and all are welcome.

As of this writing (January, 2002), we have put two proposed changes to the Town's ordinances on the ballot for consideration by the voters in March. The first is a proposed change to the Wireless Communications ordinance that would require all wireless communications facilities to more effectively "blend into" the surrounding environment. The second major initiative is a Groundwater Protection Ordinance designed to provide the Board with objective requirements for applications to ensure that groundwater supply and ability to recharge are not going to be affected by the proposed use.

The Board has recently enacted Impact Fees after a thorough research effort. These fees, charges at the building permit stage, are just one way that the Town is attempting to manage the costly effects of rapid population growth with the resulting demand for increased services. Lastly, managing longer-term growth is the theme of a major initiative, the update of the Town's Master Plan. Working with input from all Town government, the public and the Strafford County Regional Planning Commission, the Planning Board will be working this year to create an update of this important planning tool.

Respectfully Submitted,
Whit Inzer
Chair, Barrington Planning Board

School District Meeting-Deliberative Session
February 6, 2001**

Note: This meeting was originally posted to be held on Monday, February 5, 2001. However, due to a major snowstorm, the Moderator postponed the Deliberative Session until Tuesday, February 6, 2001.

Present Were: School Board Members: Lou Goscinski, Stefanie Diamond, Raymond Foss, Charter Weeks, Janis Wolak

Advisory Budget Committee Members: Frank Fellows, Dick O'Brien, Dick Minesinger, Larry Meske

Administrators: Michael A. Morgan, Superintendent; Althea Sheaff, Elementary School Principal; Peter Warburton, Middle School Principal; Kara Lamontagne, Elementary School Assistant Principal
Legal Representative: Diane Garrow, School District Attorney

At a legal meeting of the inhabitants of the Barrington School District, the following action was taken on the School Warrant on Tuesday, the sixth day of February, two thousand one. Moderator, Stanley Swier, called the meeting to order at 7 o'clock in the evening at the Elementary School on Route 125 in Barrington, New Hampshire.

Moderator Swier stated that this First Session is for the transactions of all business other than voting by official ballot and shall consist of explanations, discussion, and debate of each warrant article. Warrant articles may be amended, subject to the following limitations:

- a) Warrant Articles with wording prescribed by law shall not be amended.
- b) Warrant Articles that are amended shall be placed on the official ballot with the final vote on the main motion as amended.

The second session of the special meeting, to vote on questions required by law to be inserted on said official ballot, and to vote on all warrant articles from the first session on official ballot shall be held Tuesday, March 13, 2001 at the Barrington Elementary School, Route 125, Barrington, NH. The polls shall be open from 8:00am to 7:00pm.

The Moderator stated the following rules of order:

No smoking on school grounds, per state law.

No set rules of order will be followed.

The Moderator reserves the right to limit debate.

Debate must be pertinent to the subject on the floor.

Comments should be concise and to the point.

Only one amendment to the motion at a time.

No personal attacks will be allowed.

Persons must be recognized by the Moderator before speaking.

All discussions will take place through the Moderator.

Those who haven't had a chance to speak will have the chance

before others who have spoken.

If secret yes/no ballot is required, handicapped and elderly will be allowed to vote first.

The School Board and the Advisory Budget Committee will address the warrant articles before debate is allowed on the

floor.

The Moderator recognized School Board Chairman, Lou Goscinski. Mr. Goscinski thanked Metrocast for video taping tonight's meeting. He also thanked the Selectmen, the Planning Board, and the many volunteers who have put in so much time and effort this past year. Mr. Goscinski stated that the Board is presenting a middle school construction proposal for \$15,330,000 and has worked to prepare a fiscally conservative operating budget. Mr. Goscinski congratulated the Administration, teachers and support staff for the improved NHEIAP test scores. He stated that the middle school has been working toward accreditation with the NH Association of Schools and Colleges. He thanked the Board for the courtesy and respect they have shown and the countless hours they have given to the District. He especially thanked Janis Wolak for the calming influence she has been on the Board for many years.

Raymond Foss thanked Mr. Goscinski for his 10 years on the Board.

Dick O'Brien from the Advisory Budget Committee presented information comparing the actual tax rates and what the rates would have been without the "Adequate Education Grant," for the years 1998, 1999, and 2000.

Article 1: To choose all necessary School District Officers by ballot and majority vote, including:

One Clerk for one year.

One Moderator for one year.

One Treasurer for one year.

Two members of the School Board for three years.

Article 1 must appear on the official ballot on March 13, it cannot be amended. **Moderator Swier declared Article 1 will appear on the ballot as written.**

Article 2: "Shall the School District raise and appropriate the sum of \$15,330,000 (Gross Budget) for the purchase of land known as the 120 acres +/- of Haley property on Rt. 9 (Tax map 15, Lots 4 and 4-

A), the site work for a middle school and high school complex, and for construction and original equipping of a new middle school building, and to authorize the issuance of not more than \$14,330,000 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the School Board to issue and negotiate such bonds or notes and to determine the rate of interest thereon; furthermore, to authorize the withdrawal of \$1,000,000 from the School District Construction Capital Reserve fund created for this purpose?" (Three-fifths vote required) The School Board and the Advisory Budget Committee recommend this appropriation unanimously.

Janis Wolak made a motion to accept Article 2 as written. Seconded by Charter Weeks.

Mr. Weeks presented an outline of the middle school building proposal. The total amount is \$15,330,000 with \$1,000,000 to be taken from the Capital Reserve fund. The cost of construction is \$12,650,000, fixtures and equipment \$2,375,000, and land purchase \$300,000 plus \$5,000 for legal fees associated with the transfer. Mr. Weeks expressed gratitude to the dozens of community members who helped to evaluate the Haley property. Mr. Weeks discussed the overcrowding at the middle and elementary schools. There are 325 students at the middle school this year, next year it will jump to 352 students. Some of the concerns at the current middle school are: two modular units heated by electricity, a cordoned off section of the lunch-

room used as a Special Ed. classroom, a daily 10-15 minute walk for all sixth graders for all specials, and air quality. Mr. Weeks stated that if the new middle school were not built, the elementary would be above

capacity and would need some kind of addition. If the fifth grade moves to the new middle school, then the elementary would be back to capacity and would suit the district for another ten years. The proposed middle school would have a 650 student capacity, which would suit the district until 2018. The projected enrollment at opening is 500 students. With an addition of one academic team unit and four special class-rooms, the capacity will be 800 students. The core facilities such as the library, kitchen, cafeteria, gym-nasium and office space are sized for full capacity and can be used for community meetings, recreation, and adult education. The Board believes this is a responsible plan. The Board and the Administration worked hard to reduce the size and cost of the project. The Board assumes that with a 20-year bond and current interest rates, the average annual cost would be \$2.12 per thousand.

Ms. Wolak presented pictures taken of the current facilities and of the design of the proposed building using a Power Point presentation.

John Wallace, from the Barrington Conservation Commission, stated the Commission's enthusiastic approval of this building project. He read a letter which summarized these major points: the positive educational and environmental effects it would have on the community as long as there is a complete professional assessment done on the property and an environmental consultant hired to be sure there is extra protection for the valuable wetland areas. Discussion followed. There were questions about the cost and suitability of the property, the cost of the overall project, and the quality of the building materials. Various Board members and the Superintendent responded to issues raised. Questions and comments expressed were both in favor of and against this warrant article.

Seeing no further questions, Moderator Swier declared Article 2 will appear on the ballot as written.

Article 3: "Shall the School District, if Article 2 is defeated, raise and appropriate the sum of three hundred five thousand dollars (\$305,000) for the purchase of land, known as the 120 acres +/- of Haley property on Rt.9 (Tax map 15, Lots 4 and 4-A) for the purpose of school construction and authorize the withdrawal of three hundred five thousand dollars (\$305,000) from the School District Capital Reserve Fund created for this purpose?" (Majority vote required.) This Article is null and void if Article 2 above passes. The School Board and the Advisory Budget Committee recommend this appropriation unanimously.

Stefanie Diamond made a motion to accept Article 3 as written. Seconded by Ray Foss.

Ms. Diamond stated that the Board believes this is the best site for a building project. This article is put forth in the event that Article 2 does not pass.

Seeing no further questions, Moderator Swier declared Article 3 will appear on the ballot as written.

Article 4: "Shall the School District transfer full ownership and deed of the land, known as the Clark Goodwill property on Rt. 9 (35 acres, identified on Tax map 11, lot 6), to the Town of Barrington? (Majority vote required.) The School Board and the Advisory Budget Committee recommend this article unanimously.

Charter Weeks made a motion to accept Article 4 as written. Seconded by Stefanie Diamond.

Seeing no further questions, Moderator Swier declared Article 4 will appear on the ballot as written.

Article 5: "Shall the School District raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set fourth on the budget posted with the warrant or as amended by vote of this first session, for the purpose set fourth there in, totaling \$10,112,701, which is the same as last year, with certain adjustments required by previous action of the School District, or by law, or the governing body may hold one special meeting in accordance with RSA 40:13, X and XVI to take up the issue of a revised operating budget only." (Majority vote required.)* The School Board and the Advisory Budget Committee recommend this appropriation unanimously.

*Note: This Warrant Article (operating budget) does not include appropriations in ANY other warrant article.

Lou Goscinski made a motion to accept Article 5 as written. Seconded by Janis Wolak.

Mr. Goscinski addressed this article. He stated that the \$400,000 increase is due to many factors including: teacher salaries (this is the third year of a four-year contract), one new special education teacher, one half-time guidance counselor at the elementary school and one half-time guidance counselor at the middle school, a 15.4% increase in health care, a 9.5% increase in dental, a 4% increase for hourly staff, a one-to-one aide position at the middle school (a federally mandated position), administrative and secretarial raises, an increase in summer work, a half-time financial clerk, a half-time maintenance position, a 12% increase in special education transportation, two computers at the SAU, and Superintendent and SAU support staff raises. The 2001-2002 budget is \$20,562 (twenty thousand five hundred sixty two dollars) less than the default budget.

Seeing no further questions, Moderator Swier declared Article 5 will appear on the ballot as written.

Article 6: "Shall the School District raise and appropriate up to fifty thousand dollars (\$50,000) to be placed in the Special Education Expendable Trust Fund previously established, with such amount to be

funded from the June 30, 2001 undesignated fund balance (surplus)?" (Majority vote required.) The School Board and the Advisory Budget Committee recommend this appropriation unanimously.

Ray Foss made a motion to accept Article 6 as written. Seconded by Lou Goscinski.

Mr. Goscinski stated that there is \$100,000 plus interest in this fund at this time.

Seeing no further questions, Moderator Swier declares Article 6 will appear on the ballot as written.

Article 7: "Shall the School District raise and appropriate eleven thousand dollars (\$11,000) for the purpose of installing a cistern for additional fire prevention at the Elementary School?" (Majority vote required.)* The School Board recommends this appropriation unanimously and the Advisory Budget Committee recommends this appropriation by a vote of 4 in favor and 1 against.

* Note: This appropriation is in addition to Warrant Article 5, the operating budget article.

Ray Foss made a motion to accept Article 7 as written. Seconded by Stefanie Diamond.

Fire Chief, Rick Walker stated that this cistern holds 10,000 gallons of water. If the new middle school were built a cistern would be recommended there also.

Seeing no further comments, Moderator Swier declares Article 7 will appear on the ballot as written.

Lou Goscinski made a motion to adjourn. Seconded by Stefanie Diamond.

Moderator Swier declares the meeting adjourned at 8:50 PM.

Respectfully submitted,

Cindy Taylor
School District Clerk

**BARRINGTON SCHOOL DISTRICT
SCHOOL WARRANT ARTICLES—2002
The State of New Hampshire**

To the inhabitants of the School District of the Town of Barrington qualified to vote in district affairs: You are hereby notified of the ANNUAL MEETING.

The first session for the transaction of all business other than voting by official ballot shall be held Monday, the 4th day of February, 2002 at 7:00 P.M. at the Elementary School on Route 125 in Barrington. The first session shall consist of explanation, discussion, and debate of each warrant article. Warrant articles may be amended, subject to the following limitations:

- (a) Warrant articles whose wording is prescribed by law shall not be amended.
- (b) Warrant articles that are amended shall be placed on the official ballot for final vote on the main motion, as amended.

The second session of the special meeting, to vote on questions required by law to be inserted on said official ballot, and to vote on all warrant articles from the first session on official ballot shall be held Tuesday, March 12, 2002 at the Barrington Elementary School on Route 125 in Barrington. The polls shall be open from 8 am to 7 pm.

Articles

ARTICLE 1: To choose all necessary School District Officers by ballot and majority vote, including:

One Clerk for one year.

One Moderator for one year.

One Treasurer for one year.

One member of the School Board for one year.

One member of the School Board for three years.

ARTICLE 2: Shall the School District raise and appropriate the sum of \$14,844,129 (Gross Budget) for construction and original equipping of a new middle school building, and to authorize the issuance of not more than \$14,144,129 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the School Board to issue and negotiate such bonds or notes and determine the rate of interest thereon; and to authorize the withdrawal of \$700,000 from the School District Construction Capital Reserve Fund created for this purpose; and furthermore, to authorize the School District to raise and appropriate the additional sum of \$377,698 for payment of the first year's interest on the bonds or notes authorized by this article? (Three-fifths vote required). **The School Board and the Advisory**

Budget Committee recommend this appropriation unanimously.

ARTICLE 3: Shall the school district raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein, totaling \$10,648,493? Should this article be defeated, the operating budget shall be \$10,675,251 which is the same as last year, with certain adjustments required by previous action of the school district, or by law, or the governing body may hold one special meeting in accordance with RSA 40:13, X and XVI to take up the issue of a revised operating budget only. (Majority vote required).* **The School Board and the Advisory Budget Committee recommend this appropriation unanimously.**

*** NOTE: This Warrant Article (operating budget) does not include appropriations in ANY other warrant articles.**

ARTICLE 4: Shall the School District accept approximately 4,400 square feet of land from Verizon (Tax Map 15, Lot 4-B), located adjacent to recently-purchased school district land on Route 9, in exchange for a no-cost easement to Verizon of approximately 1,200 square feet located on elementary school property adjacent to Mallego Road for the purpose of placing some equipment in that area, on such terms and conditions as the School Board shall determine are in the best interest of the School District? (Majority vote required.)

Given under our hands at said Barrington on this 25th day of January, 2002:

Barrington School Board

Michael Clark, Chairperson

Stefanie Diamond

Report of School Officials

BARRINGTON SCHOOL DISTRICT—SAU #74
SUPERINTENDENT'S REPORT—2001

September 11th changed us forever!

On a beautiful, bright Tuesday morning while I was having a meeting in my office dealing with the proposed middle school construction project, terror struck our nation, our people. Just as the Sunday morning attack at Pearl Harbor sixty years ago reverberated around the world, similarly our students and staff will struggle to explain these new events to future generations. History was dramatically impacted on both of these occasions.

The activities and events within our School District may not rise to the dramatic level of impact noted in mid-September; however, they still reverberate in our daily lives. As projected in 1999, the steady stream of community growth saw a slight, and temporary, decline of students in 2001. Given lower birth rates in the mid-1990s, our student population in the primary grades is slightly lower than that found in our intermediate, middle, and high school populations. Having almost 400 high school students looms quietly on our horizon.

Realizing the actual length of time and the planning required to address these population needs adequately, significant efforts have been expended by school and community people to articulate a vision for long-term solutions to the many issues created by our community growth. "Enhancing, constructing, and maintaining educationally-appropriate facilities" for our children to learn is one of our highest priorities and goals.

In March 2001, 60% of voters were needed to approve a proposed middle school construction project. When 1,762 votes were tabulated, 58.51% of the community supported the project; the warrant article failed by 29 votes. However, voters did approve a subsequent warrant article that led to the purchase of 120 +/- acres of land on Route 9 (approximately 1000 yards east of the intersection with Route 125) from long-time residents, Shirley and Dwight Haley. After further environmental and geotechnical testing of the site, the land was purchased for \$300,000 on November 5, 2001.

Extensive time, work, effort, and energy have continued to be devoted to the refinement of a proposal for a new middle school for Barrington students in grades 5-8. Special recognition and gratitude are extended to Mr. Larry Meske who has served tirelessly as the Project Manager for the proposed middle school. With bond rates at their lowest level in 40 years, voters on March 12, 2002 will have the opportunity to consider this matter again. Eventually, the community will also have to grapple with the issue of high school construction,

which could easily be described as "Phase 2" in a visionary approach to addressing our long-term educational needs.

Many achievements have highlighted the past year. History needs to record them in our annals because they are the result of a truly resourceful, dedicated, and hardworking group of staff, students, and volunteers. Barrington is truly fortunate!

Recognition is noted for continuing improvement in the mandated statewide testing at grades three and six. The New Hampshire Educational Improvement and Assessment Program administered in May 2001 showed significant growth in Science and Social Studies scores at grade six. For three consecutive years our students have outscored statewide averages in these areas. Similar recognition is noted for students in grade three Language Arts work. The Washington State Apple Growers Association recognized these latter efforts and selected Barrington Elementary School for its "Apple For Your School Award" based on the NH Department of Education's recommendation that Barrington showed the most significant improvement in the state in the NHEIAP. The District continues to focus on improvement in reading in all grades because children succeed better if they are able to master reading in a wide variety of contexts.

Curriculum alignment and implementation efforts remain at the educational forefront of the District. The Middle School introduced a three-year, optional, multi-age program for its students in September 2001. Students and their parents now have the choice of a traditional middle school or a multi-age approach to learning.

A significant increase is noted in athletic and town recreation programs, each offered to strengthen student/community involvement and participation. Athletic Director and teacher, Mr. Chris Morrill, and the Town's Recreation Director, Mr. Randy Spartachino are commended for their efforts in this regard.

District-wide technology opportunities have also increased, thus allowing students of all ages equal access to our information-driven society. The extensive wiring work in all school buildings completed in late 2001 by Mrs. Liz Thayer, our new Technology coordinator, is nothing short of miraculous and allowed all of this to become a reality. Assisting her with various levels of support were her husband, Mr. Stephen Thayer, Selectman Chuck O'Ceallaigh, and Mr. Will Lenharth. Thank you!

Other key individuals are also noted for their accomplishments. Mr. Mark Ruest, our Elementary Physical Education teacher and a Middle School coach, honored us by being selected as the 2001 NH Elementary Physical Education Teacher of the Year.

Five staff members retired after giving more than a total of 100 years of service to our community: Elementary secretary, Mrs. Betty Carlson; Middle School teacher, Mrs. Sue Cantin; School Nurse, Mrs. Carol Edmunds; Middle School Secretary, Mrs. Roberta Gallagher; and Elementary Teacher, Mrs. Barb Hayes. These women dedicated much of their lives to being an integral part of the school community and are symbolic of the dedicated staff about whom Barrington is so fortunate to boast! On behalf of a generation of students and their families, thank you, ladies, for your caring and dedication to the children of our community!

Three other teachers left Barrington after devoting more than ten years of service to the District. Each of them in his/her own way left a permanent mark in the lives of children. Together we recognized their accomplishments and thank them for their service: Ms. Deedra Benson, Mr. Chip Warner, and Mrs. Anne Zwart.

Two School Board members, each of whom served as Chair at different times, consistently demonstrated their dedication to the best interests of the District. Mr. Ray Foss and Mr. Lou Goscinski spent many hours working for the improvement of programs and services for children. Many thanks, gentlemen, for your faithful service to our community!

Faithful service is also underscored in the work of the Advisory Budget Committee under the Chairmanship of Mr. Frank Fellows. This group of volunteer citizens works closely with the School Board and administration to monitor the budget preparation process. Similarly, the cooperation between school and Town personnel is enhanced by the leadership of Town Administrator, Mrs. Carol Reilly. Fortunately for taxpayers, these independent political entities work hard to focus services and reduce duplication. Collaboration and communication have been key to this process.

During the summer of 2001 the Elementary School transitioned from one assistant principal to another. After two years of wonderful leadership and interactions, Ms. Kara Lamontagne, left the District for another position. Mrs. Cheryl Peabody was hired to replace her. Thank you, Ms. Lamontagne, for being with us and welcome, Mrs. Peabody, we are glad to have you on our administrative team.

It is a privilege for me to be able to work collaboratively with the other members of our administrative team: Ms. Darlene Crete, Director of Student Services; Ms. Althea Sheaff, Elementary Principal; and Mr. Peter Warburton, Middle School Principal. At a time when good school administrators are hard to find, Barrington's residents must know that these talented and skilled professionals are truly assets to

the challenges, progress, and visions that are before us today. It is a pleasure for me to work closely with them.

Similarly, the District must acknowledge the numerous behind-the-scenes efforts and dedication of SAU personnel: Mrs. Janet Clark, Executive Secretary; Mrs. Vicki Drouin, Financial Manager; and Mr. Paul Sanders, Facilities Manager. These individuals, all Barrington residents, work tirelessly to ensure the smooth daily operations of the District. Together their resourcefulness, creativity, and determined efforts help save our taxpayers thousands of dollars each year. They have played a significant role in helping us achieve another budget surplus at the end of the 2001 fiscal year.

The 2001 budget surplus in excess of \$300,000, in addition to more than \$500,000 in federal and state grants, help the taxpayers. Together these accomplishments contribute to the wide range of services available to the students in our community. These are just some of the tangible benefits realized since Barrington became its own School Administrative Unit (SAU) in 1996. After five full years of this organizational structure, the students, staff, and citizens have benefited from more careful administration and more attention to the educational issues of the community.

Lastly, it is essential to acknowledge the efforts of the newly-formed Barrington School Foundation which began its independent, long-range endowment program for our community in early 2000. Under the leadership of Dr. Maynard Heckel, the Foundation has embarked on an ambitious undertaking of community awareness and development for future generations of our children. Its modest successes, and growing support from a wider array of community members, helped to end the 2001 calendar year with almost \$20,000 in its account. This is a realistic tribute to grassroots support being nurtured by the Trustees of the Foundation. The time will come when this novel approach to public education will be seen as a critical way to assist with the increasing financial burden of providing quality experiences for children.

Our common work is dedicated to providing the best possible educational experiences for our 1,300 students in a realistic, practical, and cost-conscious manner for our 7,475 residents. I enjoy working with you!

Respectfully submitted,

Michael A. Morgan
Superintendent of Schools

**BARRINGTON SCHOOL DISTRICT – SAU #74
BUILDINGS AND GROUNDS**

At the present time the Barrington School District Maintenance Department consists of a facilities manger, 1 1/2 maintenance laborers,

4 full-time and 3 part-time custodians. These personnel maintain four separate buildings, performing such functions as repairing, maintaining,

cleaning, and securing the schools to ensure that the daily activities (day and evening) can take place in a clean, safe, and enjoyable environment. As the school population continues to grow and the demand for community use of the facilities increases, the challenge to provide these services has become greater and more costly.

During this school year the maintenance staff has continued to provide on-demand and preventative maintenance. I would like to take this time to thank Carol Reilly and Peter Cook for all of their assistance in creating and maintaining collaboration between the Town and School departments. The sharing of services is a great benefit to the residents and taxpayers of Barrington. A very special thanks to the Highway Department for all their efforts and assistance with many projects, including the project to widen the driveway at the Elementary School which they undertook and completed in such a professional manner. What a wonderful job!

In closing, I would like to thank the administration and staff of the District for all their assistance with creating a clean and enjoyable learning environment. I look forward to a productive new school year.

Respectfully submitted,

Paul Sanders
Facilities Manager

BARRINGTON SCHOOL DISTRICT—SAU #74
FOOD SERVICE – 2000-2001

The Barrington School Food Service is all about our students. We interact with them and work with them to try to make a program that meets their needs. We have to make sure that they eat the meals that we serve and figure out how to achieve that while working within the nutritional guidelines that the U.S.D.A. issues. It is fun being with the students and knowing that what we do is of benefit to them.

Our program is an integral part of a child's school experience. Research has proven over and over again that a hungry child cannot learn and that a child who chooses "junk food" over nutritious food will find learning more difficult.

For your information, during the 2000-2001 school year the Food Service served 9,964 breakfasts and 94,795 lunches. This averages to about 583 meals per day.

The Food Service staff would like to thank Althea Sheaff, Peter Warburton, and Michael Morgan for their assistance and support. We would also like to thank the students and parents of Barrington for supporting our program.

Respectfully submitted,

Raye R. Liebert

Food Service Director

BARRINGTON SCHOOL DISTRICT—SAU #74
SCHOOL NURSE REPORT – 2000-2001

The health offices were very busy this year with a total of 11,955 visits logged for the year at all three schools. Most visits were for minor illnesses or injuries with the exception of ten injuries at the middle school and nine at the elementary school which required further medical or dental treatment. These injuries included lacerations, sprains, strains, fractures, and injuries to the teeth.

In the elementary school there were nineteen cases of chicken pox, six of impetigo, one of ringworm, six of pneumonia, and nine cases of conjunctivitis. The middle school had two cases of chicken pox and one of mononucleosis. Strep throat was very prevalent in the elementary school with forty-five students diagnosed and treated.

All classrooms were checked for head-lice the first week of school and periodically throughout the year as needed. Some classes were checked weekly until the problem was taken care of. There were seventy-eight cases of head-lice in the elementary, seven in the annex, and one in the middle school.

Health screenings were done on all students. This includes height, weight, vision, hearing, dental, nutrition, and immunization updates. Screenings resulted in one hearing and five vision referrals at the elementary school, and two vision referrals at the middle school. Preschoolers were screened prior to entry for immunizations, physical exams, and birth certificates.

This year eighteen students in the third grade had dental education and screenings done by the NH Dental Association as part of a state-wide grant.

A fall and spring sports physical clinic was held at the middle school with a practitioner from Salmon Falls Health Care. This year fifty-eight students received physicals required for participation in interscholastic sports at this clinic.

Carol Edmunds wishes to thank the health aides and faculty for their help, cooperation, and understanding for a very productive and busy year. Carol retired from the school district at the end of the school year.

Respectfully submitted,

Dee Swain, RN, BSN
District Nurse

BARRINGTON SCHOOL DISTRICT – SAU #74 PRINCIPALS' REPORT

We begin this report with enrollment figures for the Elementary and the Middle Schools. The Elementary School concluded the 2000-2001 school year with 612 students and reopened to a September population of 560 students. The kindergarten program continued with four sessions of alternate full-day classes (Monday, Wednesday, and Friday morning or Tuesday, Thursday, and Friday afternoon).

A highlight of the fall of 2001 was the Elementary School's distinction of receiving the Washington State Apple Commission's New Hampshire School of the Year Award. One school in each state was recognized for education improvement. Congratulations to all BES staff and students!

Attention to curriculum development is a continuous process of inspection and renewal. In 2001 with the guidance of our curriculum coordinator, Dr. John Crist, revisions in our social studies scope and sequence organized units of study into four categories at all grade levels, kindergarten through eighth: civics and government, economics, geography, and history.

A recommendation from our Reading Task Force led us to a two-year pilot study of two balanced reading programs. The two reading programs selected for the study, Four Blocks and Open Court, offer direct instruction with phonics and other word recognition strategies, comprehension strategies, writing, and opportunities to practice oral and silent reading. Essential for the delivery of any reading program is the expertise of the teacher. Our early release and teacher workshop days contribute to maintaining and building teacher knowledge and use of current research and practices. Reading Specialist, Marcy Dovholuk, provides direction and support for program development in language arts.

A Technology Plan, under the direction of Angela Dunton, was developed and adopted. Our students continue to take advantage of the computer labs at both the elementary and middle schools. With many hours put in by townspeople and school personnel, our computer labs and individual classrooms have been wired for Internet access. This will be a valuable researching tool for all.

Over the past few years, the middle school community has worked on the New England Association of Schools and Colleges accreditation process. The visitation from a team of educators in October 2000 showed how worthwhile a process it really is.

A full report from the committee is available at the SAU office, town Library, or at individual schools. Thank you to our middle school staff,

district staff and personnel, and parents and community members for all of their help!

We are grateful to members of our school staff and community for their concerted efforts with the proposed middle school construction project. The site selection, educational specifications, and public relations committees contributed to the overall plan that will be submitted to the voters on March 12, 2002. Special thanks are extended to the members of the Executive Building Committee and to Larry Meske, our liaison to the architectural and construction firms.

No principals' report is complete without our recognition and appreciation for the support for education from our staff and community.

- We have dedicated and talented teachers at our Elementary and Middle School, committed to the mission of the Barrington School District. Thank you for all that you do each day to reach students.
- Paraprofessionals, support staff, custodial staff, and cafeteria workers contribute to the overall school program in infinite ways. We appreciate your service to the students and community.
- Our School Board has the arduous task of developing policy and guiding the education of Barrington children. Thank you for the many hours of planning, deliberation, and decision-making for our students and community.
- The many ways that parents show their support and share responsibility for education builds on our daily work at school. We appreciate the level of effort and response to school activities and projects. Our PTA presents programs and activities to support students, staff, and families. A special thanks is extended to the PTA Executive Board for the many hours of planning that go on behind the scenes for every activity.
- Classroom volunteers are special people who commit their time to working with students and teachers. Our sincere thanks for all that you do to make a difference.
- School Superintendent, Michael A. Morgan, and Director of Student Services, Darlene Crete, offer their leadership and management skills in the best interest of our students. We extend our gratitude for your guidance and vision for our district.

Together we are making a difference!

Respectfully submitted,
Althea Sheaff
Elementary School Principal

Peter Warburton
Middle School Principal
